*Kelsey's Horticultural and  
Landscape Service*

Harlan P. Kelsey, Inc. offers a skilled service devoted to the creation of finer landscapes. After a careful study of each individual problem we recommend a development which will fit the particular location so as to combine beauty and convenience with economy of construction and maintenance. Our background of sound designing and horticultural experience assures such results.

Overgrown or run down gardens can often be improved immeasurably by readjustment, pruning, fertilization, and the addition of a few plants. Let us help you make your garden more interesting and enjoyable.

Small home grounds are given the same careful planning and consideration as larger developments, which include Private Estates, Business and Industrial Plants, Country Clubs, Parks and Playgrounds, Educational Institutions, Churches, Hospitals and Cemeteries. We hope you will feel free to consult us about any of your horticultural problems and you may be assured of our personal attention to your inquiries.

No charge is ordinarily made for a preliminary conference at our office, or on the grounds where most effective results are usually obtained. If, however, considerable time or distance is involved a minimum charge is made to cover costs.

# *Classes of Plants in General*

## *Alphabetical Listing*

---

### **CONIFEROUS EVERGREENS**

Abies	Picea	Taxus
Cedrus	Pinus	Thuja
Chamaecyparis	Pseudotsuga	Tsuga
Juniperus		

### **BROADLEAF EVERGREENS**

Andromeda	Epigaea	Leucothoe catesbaei
Arctostaphylos	Erica	Mitchella
Buxus	Euonymus	Pachistima
Calluna	Galax	Pachysandra
Cedrus	Gaylussacia	Pieris
Chamaedaphne	Ilex glabra	Rhododendrons in variety
Cotoneaster	Kalmia	Shortia
Daphne	Leiophyllum	Vaccinium vitisidaea
		Vinca

### **DECIDUOUS TREES AND SHRUBS**

Acer	Genista	Populus
Ailanthus	Gingko	Prunus
Amelanchier	Halesia	Quercus
Aronia	Hamamelis	Rhamnus
Azalea	Hydrangea	Rhododendron canadense
Berberis	Ilex	Rhododendron canadense
Betula	Juglans	albiflorum
Calycanthus	Kerria	Rhododendron
Carpinus	Kolkwitzia	mucronulatum
Celtis	Larix	Robinia
Chaenomeles	Leucothoe recurva	Rosa
Chionanthus	Ligustrum	Salix
Cladrastis	Lonicera	Sophora
Clethra	Lyonia	Sorbus
Cornus	Magnolia	Spiraea
Cotoneaster	Malus	Symphoricarpos
Crataegus	Morus	Syringa
Daphne	Myrica	Tilia
Deutzia	Nyssa	Ulmus
Diervilla	Oxydendrum	Vaccinium
Euonymus	Phellodendron	Viburnum
Fagus	Philadelphus	Weigela
Forsythia	Photinia	Xanthorhiza

# General Alphabetical Listing

NOTE: *Figures* immediately following names indicate the approximate heights reached by the trees and shrubs under normal conditions, first under cultivation, and then in their natural habitats.

*Hv.* — Horticultural Variety; these do not come true from seed; they are either “polybrids” or selected “clons” of polybrids.

*X* — Hybrid; a cross between parents of different species or varieties.

For 1-4 plants of a kind and size use the single rate, for 5-24 the ten rate. Special prices on large quantities.

<b>ABIES concolor</b> , WHITE FIR, 60-120 ft.	Each	Per 10
Green or blue-green leaves, pyramidal.		
5-6 ft. B&B .....	14.00	

<b>ABIES fraseri</b> , FRASER BALSAM FIR, 35-60 ft.		
Dark green, pyramidal.		
18-24 in. B&B .....	3.25	29.00
2-3 ft. B&B .....	4.50	40.00
6-7 ft. B&B .....	14.00	
10-12 ft. B&B .....	30.00	
12-14 ft. B&B .....	37.50	

<b>ABIES fraseri prostrata</b> , PROSTRATE FRASER BALSAM FIR, 4 ft.	
Rare, new widespreading variety to 12 or more feet across.	
6-8 ft. spread, B&B .....	60.00

<b>ABIES homolepis</b> , NIKKO FIR, 60-80 ft.	
Broadly pyramidal species, dark lustrous leaves.	
3-4 ft. B&B .....	6.00
4-5 ft. B&B .....	8.25
5-6 ft. B&B .....	10.75
6-7 ft. B&B .....	14.00
7-8 ft. B&B .....	18.00
8-10 ft. B&B .....	23.00
10-12 ft. B&B .....	30.00
12-14 ft. B&B .....	37.50
14-16 ft. B&B .....	50.00
16-18 ft. B&B .....	65.00

<b>ABIES lasiocarpa arizonica</b> , CORKBARK FIR, 40-90 ft.		
Blue-green leaves and interesting corky bark, narrow pyramidal.		
2-3 ft. B&B .....	6.00	54.00
3-4 ft. B&B .....	8.00	72.00
4-5 ft. B&B .....	11.00	
5-6 ft. B&B .....	15.00	
6-7 ft. B&B .....	20.00	

		Each	Per 10
<b>ABIES veitchi</b> , VEITCH FIR, 40-80 ft.			
Very hardy and handsome, lustrous dark green foliage.			
7-8 ft. B&B	.....	18.00	
8-10 ft. B&B	.....	23.00	
<b>ACER ginnala</b> , AMUR MAPLE, 15-20 ft.			
Shrub or small tree, showy red fruit in summer and red leaves in autumn.			
5-6 ft.	.....	3.50	
6-8 ft.	.....	5.00	
<b>ACER palmatum</b> , Hv. BLOODLEAF JAPANESE MAPLE, 18-25 ft.			
Popular for deep reddish-purple leaves. Slow growing.			
12-15 in. B&B	.....	3.00	
<b>ACER platanoides</b> , NORWAY MAPLE, 80-100 ft.			
A fine shade or street tree. Yellow-green flowers in Spring, bright green leaves turning yellow in Fall.			
6-8 ft.	.....	4.00	36.00
8-10 ft.	.....	5.50	49.00
8-10 ft. 1 1/2-1 3/4 in. cal.	.....	7.00	63.00
10-12 ft. 1 3/4-2 in. cal.	.....	9.00	81.00
<b>ACER rubrum</b> , RED MAPLE, 60-120 ft.			
Red flowers in early Spring, brilliant red autumn coloring. One of the finest ornamental trees.			
6-8 ft.	.....	4.00	36.00
8-10 ft.	.....	5.50	49.00
8-10 ft. 1 1/2-1 3/4 in. cal.	.....	7.00	63.00
10-12 ft. 1 3/4-2 in. cal.	.....	9.00	81.00
12-14 ft. 2-2 1/2 in. cal.	.....	13.00	
14-16 ft. 2 1/2-3 in. cal.	.....	18.00	
<b>ACER saccharum</b> , SUGAR MAPLE, 60-120 ft.			
Light greenish yellow flowers in Spring, leaves bright orange-scarlet and yellow in autumn.			
6-8 ft.	.....	4.00	36.00
8-10 ft.	.....	5.50	49.00
8-10 ft. 1 1/2-1 3/4 in. cal.	.....	7.00	63.00
10-12 ft. 1 3/4-2 in. cal.	.....	9.00	81.00
<b>ACER tataricum</b> , TATARIAN MAPLE, 15-20 ft.			
Flowers greenish-white in May. Bright red fruit and yellow foliage in autumn. A fine small tree.			
8-10 ft.	.....	7.50	67.00
<b>AILANTHUS altissima</b> , TREE OF HEAVEN AILANTHUS, 40-120 ft.			
Fine tree with handsome foliage. Especially valuable for difficult city conditions.			
5-6 ft.	.....	2.00	18.00

<b>AMELANCHIER canadensis, SHADBLOW SERVICEBERRY,</b>		Each	Per 10
15-40 ft.			
Small tree, white flowers in Spring, reddish-purple fruit in June. Attractive to birds.			
2-3 ft. ....		1.75	15.75
3-4 ft. ....		2.25	20.00
4-5 ft. ....		3.00	27.00

<b>AMELANCHIER laevis, ALLEGANY SERVICEBERRY, 20-30 ft.</b>			
Similar to above, flowers purer white, young leaves purplish-red. Highly ornamental.			
5-6 ft. ....		4.00	
6-8 ft. ....		6.00	
8-10 ft. ....		8.00	

<b>AMELANCHIER oblongifolia, THICKET SERVICEBERRY, 10-18 ft.</b>			
Makes a dense clump, with white flowers in May, sweet black fruit in June. Fine for birds.			
3-4 ft. ....		2.00	18.00

<b>ANDROMEDA glaucophylla, DOWNY ANDROMEDA, 1-2 ft.</b>			
Light pink or white flowers in June. A gem for bog or moist rock garden.			
9-12 in. ....		1.50	13.50

<b>ARCTOSTAPHYLOS uvaursi, BEARBERRY.</b>			
One of the finest groundcovers for sun or shade, good soil or poor. Prostrate, with pink or white flowers in June and bright red fruit in July-September. Buy only pot grown plants.			
3-6 in. spread, pot grown (35.00 per 100) ...		.50	4.50
6-9 in. spread, pot grown (55.00 per 100) ...		.75	6.75
9-12 in. spread, pot grown (75.00 per 100) ...		1.00	9.00

<b>ARONIA arbutifolia, RED CHOKEBERRY, 5-10 ft.</b>			
White flowers in April-May, persistent red fruit. September-December. Splendid for birds.			
2-3 ft. ....		1.25	11.25
3-4 ft. ....		1.75	15.75
4-5 ft. ....		2.25	20.00

<b>ARONIA melanocarpa, BLACK CHOKEBERRY, 4-8 ft.</b>			
Similar, but fruit is lustrous black or purple.			
2-3 ft. ....		1.25	11.25
3-4 ft. ....		1.75	15.75
4-5 ft. ....		2.25	20.00

*Azalea vaseyi*      PINKSHELL AZALEA

## AZALEAS

We list only the native and most hardy exotic varieties. These acid-soil loving plants mass well with the broadleaf evergreens and are distinct and beautiful additions to any planting. Though not evergreen they are closely related to the Rhododendrons and require similar soil conditions and care.

<b>AZALEA arborescens, SWEET AZALEA, 6-20 ft.</b>		Each	Per 10
Very fragrant white or pinkish-white flowers in June or July. Striking red autumn foliage.			
18-24 in. B&B	.....	3.75	33.75
2-3 ft. B&B	.....	5.25	47.25
3-4 ft. B&B	.....	7.00	63.00

<b>AZALEA calendulacea, FLAME AZALEA, 6-12 ft.</b>			
Yellow, orange or scarlet flowers in May or June. The finest of all species, native or exotic, and a noble representative of our rich Carolina mountain flora.			
18-24 in. B&B	.....	4.50	40.50
2-3 ft. B&B	.....	5.50	49.50
3-4 ft. B&B	.....	8.00	
4-5 ft. B&B	.....	12.00	

<b>AZALEA canescens</b> , PIEDMONT AZALEA, 6-16 ft.		Each	Per 10
Showy tubular pink fragrant flowers in May. Rarely exceeds 6 feet in the garden. A mass planting makes a gorgeous spectacle.			
18-24 in. B&B	.....	3.50	31.50
2-3 ft. B&B	.....	4.50	
3-4 ft. B&B	.....	7.00	

<b>AZALEA nudiflora</b> , PINXTERBLOOM AZALEA, 6-8 ft.			
Beautiful clear pink, flowering early just after Azalea vaseyi.			
4-5 ft. B&B	.....	10.00	
5-6 ft. B&B	.....	13.50	

<b>AZALEA obtusa</b> , HIRYU AZALEA, 1-3 ft.			
A choice, dwarf, almost evergreen form with small bright green leaves and rosy-purple flower.			
6-9 in. B&B	.....	2.00	18.00
9-12 in. B&B	.....	3.00	27.00

<b>AZALEA obtusa kaempferi</b> , TORCH AZALEA, 7-10 ft.			
One of the most brilliant with red or orange-red flowers profusely borne in late April or early May.			
15-18 in. B&B	.....	3.50	
18-24 in. B&B	.....	5.00	

<b>AZALEA schlippenbachii</b> , ROYAL AZALEA, 7-15 ft.			
In May the large rose-colored flowers 2½-3 inches across make a notable showing. Bright yellow, orange or red autumn color.			
15-18 in. B&B	.....	3.50	31.50
18-24 in. B&B	.....	5.00	45.00
2-3 ft. B&B	.....	7.00	

<b>AZALEA vaseyi</b> , PINKSHELL AZALEA, 6-15 ft.			
Introduced by Harlan P. Kelsey. The delicate white, pink or deep rose-colored flowers are conspicuous in April or early May before the foliage appears. A free bloomer, even when small, this is one of our choicest American ornamentals.			
18-24 in. B&B	.....	4.00	36.00
2-3 ft. B&B	.....	6.00	54.00
3-4 ft. B&B	.....	8.00	91.00
4-5 ft. B&B	.....	10.00	
5-6 ft. B&B	.....	14.00	

<b>AZALEA viscosa</b> , SWAMP AZALEA, 8-12 ft.			
Fragrant white flowers in June and July. Useful for damp locations.			
18-24 in. B&B	.....	3.00	27.00
2-3 ft. B&B	.....	5.00	45.00

<b>AZALEA yedoensis poukhanensis, YODOGAWA AZALEA.</b>		Each	Per 10
2-3 ft.			
A broad low variety with a profusion of large orchid-colored flowers in May. Most useful where a low shrub is desired.			
9-12 in. B&B	.....	2.50	22.50
12-15 in. B&B	.....	3.50	31.50
<b>BERBERIS koreana, KOREAN BARBERRY, 5-7 ft.</b>			
Attractive upright shrub with broad, bright green leaves, dense yellow flower cluster, and vivid red persistent fruit. Deep red autumn color.			
2-3 ft.	.....	2.00	18.00
3-4 ft.	.....	3.00	27.00
4-5 ft.	.....	4.00	36.00
<b>BERBERIS sieboldi, SIEBOLD BARBERRY, 4-5 ft.</b>			
Very distinct and ornamental, the leaves purplish when unfolding, marked with green veins, changing to bright vinous-red in autumn. Persistent bright-red lustrous fruit.			
12-15 in.	.....	1.00	
15-18 in.	.....	1.50	
<b>BERBERIS thunbergi, JAPANESE BARBERRY, 3-8 ft.</b>			
A universal hedge plant, with pale yellow flowers in April and May, followed by deep red fruit and brilliant red autumn color.			
15-18 in. (40.00 per 100)	.....	.50	4.50
18-24 in. (50.00 per 100)	.....	.60	5.40
<b>BERBERIS thunbergi atropurpurea, REDLEAF JAPANESE BARBERRY, 3-6 ft.</b>			
Purple red leaves make this a striking and distinct variety.			
18-24 in.	.....	1.25	11.25
<b>BETULA lutea, YELLOW BIRCH, 70-90 ft.</b>			
Ornamental tree with yellowish or silvery-gray bark, reddish brown on old trunks.			
8-10 ft. B&B	.....	8.00	
10-12 ft. B&B	.....	11.00	
<b>BETULA nigra, RIVER BIRCH, 50-100 ft.</b>			
A graceful tree with conspicuous reddish-brown or grayish bark. Fine for moist locations.			
8-10 ft. B&B	.....	7.50	67.50
10-12 ft. B&B	.....	10.00	90.00

<b>BETULA papyrifera, PAPER BIRCH, 60-100 ft.</b>		Each	Per 10
This noble tree, the canoe birch of the Indians, is indispensable to the landscape designer.			
6-8 ft. B&B	.....	6.00	54.00
8-10 ft. B&B	.....	8.00	72.00
10-12 ft. B&B	.....	11.00	

<b>BETULA pendula (alba), EUROPEAN WHITE BIRCH, 50-75 ft.</b>			
Large tree with shining white bark.			
5-6 ft. B&B	.....	5.00	45.00
6-8 ft. B&B	.....	6.00	54.00
8-10 ft. B&B	.....	8.00	72.00
10-12 ft. B&B	.....	11.00	

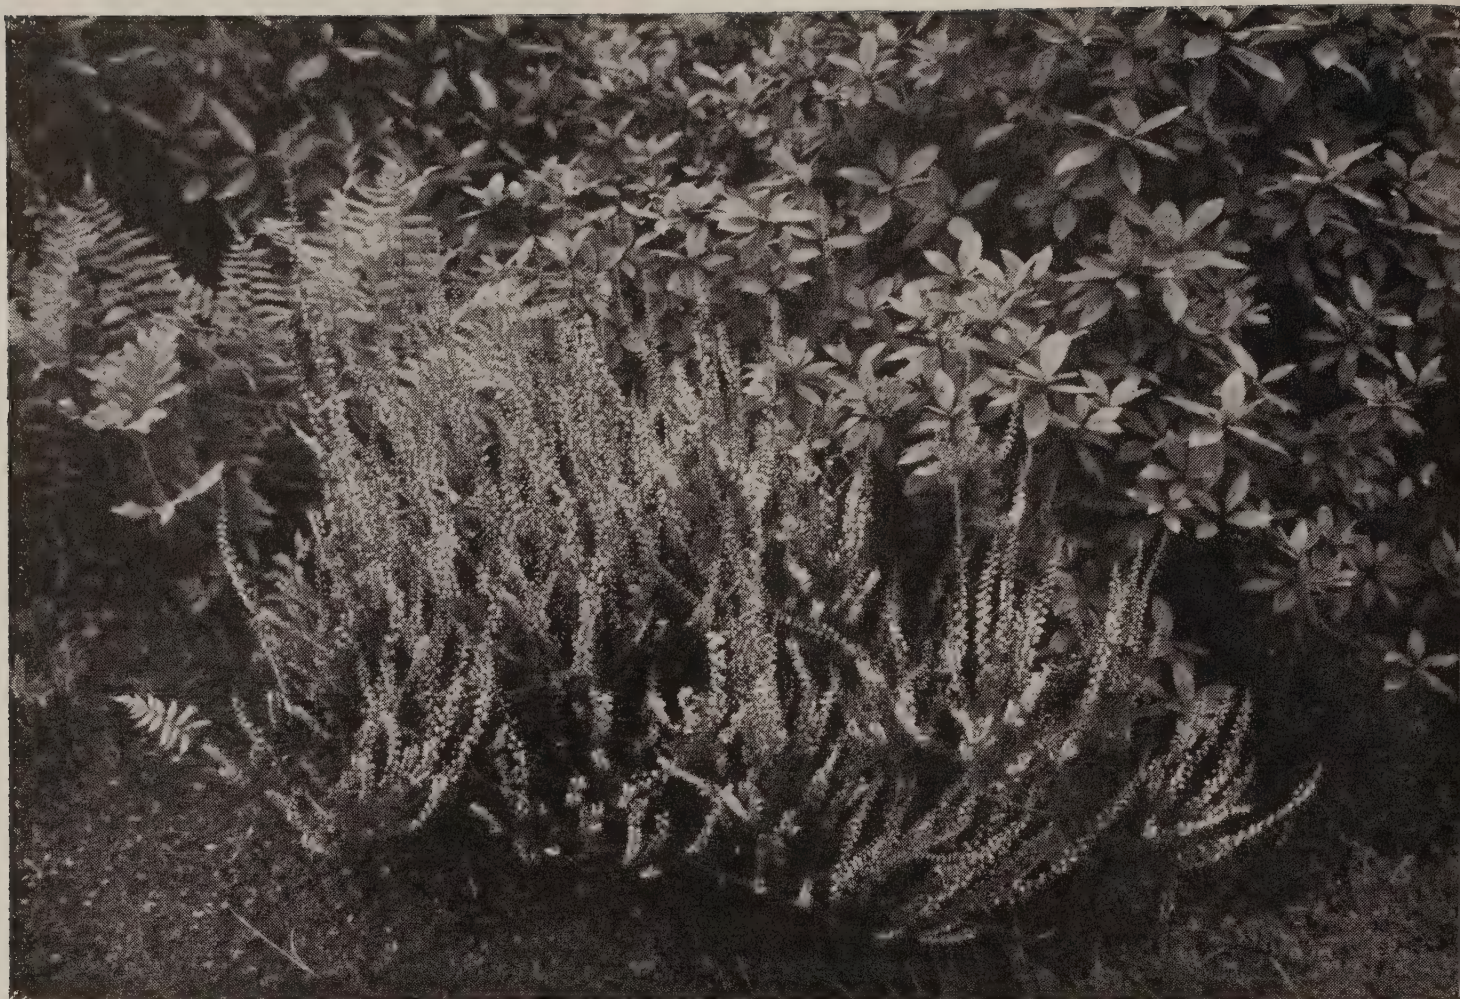

<b>BETULA pendula gracilis, Hv. CUTLEAF BIRCH, 50-75 ft.</b>			
A universal favorite, with graceful weeping branches, and the white bark characteristic of the species.			
5-6 ft. B&B	.....	4.50	
6-8 ft. B&B	.....	6.00	

<b>BETULA populifolia, GRAY BIRCH, 30-60 ft.</b>			
A friendly tree of open woods and pastures.			
6-8 ft. B&B	.....	5.00	45.00
8-10 ft. B&B	.....	7.50	67.50
10-12 ft. B&B	.....	10.00	90.00

<b>BUXUS microphylla koreana, KOREAN LITTLELEAF Box, 2 ft.</b>			
At last an entirely hardy box, needing no winter protection. Fine for hedge where a low plant is desired.			
3-6 in.	.....	1.00	9.00
6-9 in.	.....	1.50	13.50

**PLANTINGS FOR BIRDS.** Birds add beauty and song to the gardens, and are of greatest value in curbing insect damage. Every garden should include plants that provide natural bird food and cover. We know what these plants are and will gladly help you plan their proper use. Birds are a constant joy and entertainment in the garden—a bird-feeding station in a corner of your garden dedicated to bird life will be a continuing delight. See Page 53 for Berry Bearing Plants.

**HEDGES, WINDBREAKS AND SCREENS.** The growing of fine material for ever-green and deciduous hedges, windbreaks and screens is a specialty at Kelsey-Highlands Nursery. For protection from harsh winds, for masking unsightly views and to insure privacy the larger screens are often invaluable. Lower hedges and borders are pleasing essentials in many garden designs. We will gladly submit recommendations and quotations for individual problems. A far wider list is available for these uses than is generally supposed.

## SCOTCH HEATHER (*Calluna vulgaris*)

PHOTO BY HERBERT W. GLEASO

## HEATHER

## CALLUNA, HEATHER

Each

Per 10

All varieties of heather are evergreen. In general they rarely exceed two feet in height, and are valuable for ground-cover in sunny locations and poor soils. Occasional shearing helps to keep them compact. All flower in late Summer and early Fall, all are pot grown.

**CALLUNA vulgaris, SCOTCH HEATHER, 2-3 ft.**

<b>CALLUNA vulgaris</b> , Hv. CUPREA, 1½ ft.		Each	Per 10
Pink flowers and bronze foliage.			
3-6 in.	.....	.90	8.00
6-9 in.	.....	1.25	11.25
<b>CALLUNA vulgaris</b> , Hv. HAMMOND, 2 ft.			
White flowers, bright green leaves, strong grower.			
3-6 in.	.....	.70	6.25
<b>CALLUNA vulgaris</b> , Hv. HIRSUTA, 1½ ft.			
Purple flowers.			
3-6 in.	.....	.70	6.25
6-9 in.	.....	1.00	9.00
9-12 in.	.....	1.50	13.50
<b>CALLUNA vulgaris</b> , Hv. Moss ( <i>nana</i> ), 6-9 in.			
Pink flowers, very dwarf habit, a shy bloomer.			
3-6 in.	.....	1.00	9.00
<b>CALLUNA vulgaris</b> , Hv. MULTIPLEX, 1 ft.			
Double pink flowers, choice.			
3-6 in.	.....	1.00	9.00
6-9 in.	.....	1.25	11.25
<b>CALLUNA vulgaris</b> , Hv. SEARLE, 1½ ft.			
White, late flowering, open growth.			
3-6 in.	.....	.70	6.25
6-9 in.	.....	1.00	9.00
<b>CALLUNA vulgaris</b> , Hv. TALL ( <i>elata</i> ), 1½ ft.			
White flowers.			
3-6 in.	.....	.70	6.25
6-9 in.	.....	1.00	9.00
<b>CALLUNA vulgaris</b> , Hv. TENNELLA, 1 ft.			
Lavender flowers.			
3-6 in.	.....	.70	6.25
6-9 in.	.....	1.00	9.00
<b>CALLUNA vulgaris</b> , Hv. SILKY ( <i>pilosa</i> ), 1 ft.			
White flowers, gray-green foliage.			
3-6 in.	.....	.70	6.25
6-9 in.	.....	1.00	9.00
<b>CALYCANTHUS floridus</b> , COMMON SWEETSHRUB, 4-10 ft.			
Curious reddish-brown fragrant flowers in June and July. A native species.			
18-24 in.	.....	1.25	11.25
2-3 ft.	.....	1.75	15.75

For 1-4 plants of a kind and size use the single rate, for 5-24 the ten rate. Special prices on large quantities.

	Each	Per 10
<b>CARPINUS betulus</b> , EUROPEAN HORNBEAM, 50-70 ft.		
An interesting tree, having very hard wood, and birchlike leaves 3-4 inches long. Smooth, gray, close-fitting bark.		
3-4 ft. B&B .....	5.00	
6-8 ft. B&B .....	8.00	
8-10 ft. B&B .....	12.00	
<b>CARPINUS carolinianum</b> , AMERICAN HORNBEAM, 30-40 ft.		
American species with closely-ribbed or fluted bark.		
10-12 ft. ....	20.00	
<b>CEDRUS libani</b> , CEDAR-OF-LEBANON, 40-120 ft.		
The hardy Arnold Aboretum form of this historic tree. A beautiful and stately tree, with rich green leaves and somewhat irregular growth. A very few plants only are available.		
9-12 in. B&B .....	6.00	
<b>CELTIS occidentalis</b> , COMMON HACKBERRY, 50-100 ft.		
Straight trunk and spreading branches, forming a handsome round-topped head. Bright green leaves turning light yellow in autumn. Orange-red to dark purple fruit.		
2-3 ft. ....	2.00	
3-4 ft. ....	3.00	
<b>CHAENOMELES lagenaria</b> , COMMON FLOWERING-QUINCE, 5-7 ft.		
Red or scarlet-red flowers in April (rarely late March) and lustrous dark green leaves. Sometimes used for hedges.		
18-24 in. ....	1.00	9.00
2-3 ft. ....	1.50	13.50
<b>CHAMAECYPARIS pisifera filifera</b> , SAWARA THREAD FALSECYPRESS, 10 ft.		
Broadly pyramidal small tree or shrub, with interesting elongated thread-like branches.		
3-4 ft. B&B .....	7.00	
<b>CHAMAECYPARIS pisifera plumosa</b> , PLUME SAWARA FALSECYPRESS, 30 ft.		
Dense conical tree with ascending branches and feathery branchlets giving it a soft fluffy appearance.		
2-3 ft. B&B .....	5.00	45.00
3-4 ft. B&B .....	6.50	58.00

**RENOVATION OF GARDENS AND PLANTATIONS.** Overgrown or run down gardens can often be improved immeasurably by readjustment, pruning, fertilization, the addition of a few plants, etc. Let us help you make your garden more interesting and enjoyable.

<b>CHAMAEDAPHNE calyculata</b> , LEATHERLEAF, 3-5 ft.		Each	Per 10
Small white flowers in April-June, and dull green leaves. This native broadleaf evergreen prefers a moist or boggy location.			
18-24 in. B&B	.....	3.00	27.00
2-2½ft. B&B	.....	4.00	36.00
<b>CHIONANTHUS virginicus</b> , WHITE FRINGETREE, 10-15 ft.			
Profuse white flowers in showy panicles in May-June and dark blue fruit make this a highly prized ornamental shrub. Give it plenty of room.			
3-4 ft.	.....	2.00	18.00
<b>CLADRASTIS lutea</b> , AMERICAN YELLOWWOOD, 40-60 ft.			
Fragrant white flowers in loose drooping panicles in mid-summer. A charming native species.			
2-3 ft.	.....	3.00	27.00
<b>CLETHRA alnifolia</b> , SUMMERSWEET CLETHRA, 5-10 ft.			
This dependable native species has delightfully fragrant white flowers from late July thru Sept.			
2-3 ft.	.....	1.50	13.50
<b>CLETHRA alnifolia rosea</b> , PINK SUMMERSWEET CLETHRA, 5-10 ft.			
This attractive rare pink-flowered variety is a must for those who want late summer color and fragrance.			
18-24 in.	.....	2.50	
2-2½ft.	.....	3.50	
<b>CORNUS alternifolia</b> , PAGODA DOGWOOD, 15-25 ft.			
Branches in horizontal tiers, accounting for its name. White flowers in May. Dark blue fruit in August.			
2-3 ft.	.....	1.50	13.50
3-4 ft.	.....	2.00	18.00
<b>CORNUS florida</b> , FLOWERING DOGWOOD, 20-70 ft.			
This noblest of native flowering trees is a universal favorite. The showy white flower bracts make it a gorgeous sight in May, and scarlet fruit as well as brilliant red leaves make it one of autumn's showiest plants.			
3-4 ft. B&B	.....	4.00	36.00
4-5 ft. B&B	.....	5.00	45.00
5-6 ft. B&B	.....	6.50	58.50
<b>CORNUS florida rubra</b> , PINK FLOWERING DOGWOOD, 20-50 ft.			
Pink-flowering variety. Splendid when planted to contrast with the white.			
2-3 ft. B&B	.....	5.00	
3-4 ft. B&B	.....	6.50	

<b>CORNUS racemosa</b> , GRAY DOGWOOD, 8-16 ft.	Each	Per 10
White flowers in June-July, and attractive white fruit on red fruit-stalks in September-October. The persistent fruit-stalks give it a warm reddish glow well into the winter. Attractive to birds.		
4-5 ft. ....	2.50	
<b>CORNUS sanguinea</b> , BLOODTWIG DOGWOOD, 6-12 ft.		
White flowers, May-June and purple-black fruit in September. The red branches are bright all winter.		
3-4 ft. ....	1.50	13.50
<b>CORNUS stolonifera</b> , REDOSIER DOGWOOD, 5-8 ft.		
White flowers, May-June. Similar to above, but lower, with blood-red branches.		
2-3 ft. ....	1.25	11.25
3-4 ft. ....	1.75	15.75
<b>CORNUS stolonifera</b> , Hv. KELSEYDWARF REDOSIER DOGWOOD, 2 ft.		
Originating at Kelsey-Highlands Nursery. This rare dwarf form is fine for low hedges, rarely exceeding two feet in height. Bright red twigs.		
18-24 in. ....	2.00	
<b>COTONEASTER dielsiana</b> , DIELS COTONEASTER, 6-8 ft.		
Pinkish flowers in June, and coral-red fruit on arching branches in September-October. A fine shrub.		
18-24 in. ....	1.50	13.50
2-3 ft. ....	2.00	18.00
<b>COTONEASTER divaricata</b> , SPREADING COTONEASTER, 6-8 ft.		
Pink flowers in June. Bright red fruit in autumn.		
18-24 in. ....	1.50	13.50
2-3 ft. ....	2.00	18.00
<b>COTONEASTER horizontalis</b> , ROCK COTONEASTER, 1½-3 ft.		
A half-evergreen low shrub with horizontally spreading branches. Small pinkish flowers in June and bright red sub-globose fruit in September-October.		
6-9 in. (pot grown) ....	1.00	9.00
<b>COTONEASTER horizontalis perpusilla</b> , GROUND COTONEASTER, 1-2 ft.		
Similar to above but more small branches. Fruit smaller but more numerous. Orange-red autumn color.		
18-24 in. spread (pot grown) ....	2.50	22.50

<b>COTONEASTER horizontalis wilsoni</b> , WILSON GROUND COTONEASTER, 1-2 ft. Similar, but a little looser in habit of growth.	Each	Per 10
9-12 in. spread (pot grown) .....	1.50	
12-15 in. spread (pot grown) .....	2.00	
<b>COTONEASTER lucida</b> , HEDGE COTONEASTER, 5-9 ft. Upright deciduous shrub, pinkish flowers in May-June, black fruit in September.		
18-24 in. ....	1.50	13.50
<b>COTONEASTER microphylla</b> , ROCKSPRAY COTONEASTER, 2-3 ft. A fine low evergreen shrub, with spreading branches forming a dense mass. White flowers and purple anthers in May-June, quarter inch scarlet fruit in September-October.		
6-9 in. spread (pot grown) .....	1.00	9.00
<b>CRATAEGUS arnoldiana</b> , ARNOLD HAWTHORN, 15-20 ft. Small ornamental tree forming a broad irregular crown. Large white flowers in early May, and large scarlet or crimson fruit in August-September.		
4-5 ft. B&B .....	5.00	
5-6 ft. B&B .....	7.00	
6-7 ft. B&B .....	10.00	
<b>CRATAEGUS coccinioides</b> , KANSAS HAWTHORN, 20-25 ft. Compact clusters of white flowers in May, followed by lustrous dark crimson fruit in early October.		
6-7 ft. B&B .....	9.00	
<b>CRATAEGUS crusgalli</b> , COCKSPUR HAWTHORN, 20-30 ft. Attractive in bloom, with white flowers in May or June. Bright red fruit in Fall and Winter. Leaves turn to orange and scarlet in Fall. Numerous slender thorns make it useful where an impenetrable hedge is desired.		
6-7 ft. B&B .....	9.00	81.00
<b>CRATAEGUS oxyacantha</b> , HV. PAULS SCARLET HAWTHORN, 15-25 ft. One of the most brilliant small flowering trees, with double bright scarlet flowers in late May.		
5-6 ft. B&B .....	7.50	
<b>CRATAEGUS phaenopyrum</b> , WASHINGTON HAWTHORN, 20-30 ft. One of the very best Hawthorns, with profuse white flowers in May-June, and lustrous scarlet fruit in September-October.		
5-6 ft. B&B .....	7.00	

<b>DAPHNE cneorum</b> , ROSE DAPHNE, 9-12 ft.	Each	Per 10
Especially fragrant rosy-pink flowers profusely borne in May-June. Lighter bloom in Fall. This low evergreen shrub is deservedly popular.		
6-9 in. spread .....	1.25	11.25
9-12 in. spread .....	1.75	15.75

<b>DAPHNE mezereum</b> , FEBRUARY DAPHNE, 4 ft.		
A harbinger of Spring, with rosy-purple flowers in March or earliest April, before the foliage appears, followed by handsome bright red fruit. A real gem.		
12-18 in. ....	2.00	18.00
18-24 in. ....	2.75	24.75

<b>DEUTZIA gracilis</b> , SLENDER DEUTZIA, 2½-3 ft.		
A fine low shrub, with white flowers in June.		
15-18 in. ....	1.50	13.50

<b>xDEUTZIA lemoinei</b> , LEMOINE DEUTZIA, 4-6 ft.		
A handsome and free-flowering shrub, with white flowers in June. Hardest of the genus.		
18-24 in. ....	1.50	13.50

<b>DEUTZIA scabra</b> , HV. PRIDE OF ROCHESTER, 12 ft.		
Much taller; white flowers tinged with rose.		
3-4 ft. ....	1.75	15.75

<b>DIERVILLA sessilifolia</b> , SOUTHERN BUSHHONEYSUCKLE, 3-5 ft.		
Sulphur yellow flowers in late June, July and August, when not many shrubs are in flower.		
2-3 ft. ....	1.50	13.50

<b>EPIGAEA repens</b> , TRAILING ARBUTUS, 1-3 in.		
The state flower of Massachusetts. White to rose-colored flowers in very early spring with a rich, spicy fragrance. The evergreen leaves make a fine ground cover. Prefers moist but well-drained location with plenty of humus.		
Strong pot grown .....	1.25	11.25

<b>ERICA carnea</b> , SPRING HEATH, 8-15 in.		
Rosy-red flowers in late March or early April. A fine low evergreen species for the rock garden or low border.		
4-6 in. ....	1.00	9.00

See Pages 52-58 for valuable lists of plants for special purposes and environments.

<b>EUONYMUS alatus</b> , WINGED EUONYMUS, 10-15 ft.		Each	Per 10
Curious corky winged twigs. A large shrub, with small yellowish flowers in May-June. Especially valued for the orange-red fruit and extremely brilliant autumn coloring.			
2-3 ft. ....	3.00	27.00	
<b>EUONYMUS alatus</b> , Hv. DWARF WINGED EUONYMUS, 5-8 ft.			
Similar to above, but slower growing and more compact.			
18-24 in. ....	2.50	22.50	
<b>EUONYMUS hunganus</b> , WINTERBERRY EUONYMUS, 12-15 ft.			
Yellowish flowers in June on a small tree of loose graceful habit. Profuse and persistent pinkish fruit with orange aril in October.			
5-6 ft. ....	5.00		
<b>EUONYMUS europaeus</b> , EUROPEAN EUONYMUS, 14-20 ft.			
Upright shrub or small tree, yellowish-green flowers in May. Brilliant in September-October with orange aril on a red or pink pod.			
3-4 ft. ....	2.50	22.50	
<b>EUONYMUS latifolius</b> , BROADLEAF EUONYMUS, 14-20 ft.			
Shrub or small tree, greenish-yellow flowers in May-June, and bright red and orange fruit in September.			
2-3 ft. ....	2.00	18.00	
3-4 ft. ....	2.50	22.50	
4-5 ft. ....	3.50	31.50	
5-6 ft. ....	5.00	45.00	
<b>EUONYMUS maacki</b> , MAACK EUONYMUS, 8-16 ft.			
Large shrub or small tree from North China, Manchuria and Korea. Yellowish flowers in June and handsome pink and orange fruit.			
4-5 ft. ....	4.00	36.00	
<b>FAGUS sylvatica</b> , EUROPEAN BEECH, 80-100 ft.			
This magnificent tree makes a noble lawn specimen, with glossy dark green leaves. Smooth gray bark.			
6-8 ft. B&B ....	13.50		
8-10 ft. B&B ....	17.50		
10-12 ft. B&B ....	25.00		

<b>x</b> <b>FORSYTHIA intermedia spectabilis</b> , Hv. <b>SHOWY</b>	Each	Per 10
BORDER FORSYTHIA, 7-10 ft.		
More compact than old fashioned kinds, and showier in flower.		
2-3 ft. ....	1.00	9.00
3-4 ft. ....	1.50	13.50

<b>FORSYTHIA ovata</b> , <b>EARLY FORSYTHIA</b> , 5-8 ft.		
A new distinct and handsome species from Korea and the earliest to bloom. Makes a broad shrub. Sure to flower in northern latitudes where others usually fail. Wine colored autumn foliage.		
15-18 in. ....	1.00	9.00
18-24 in. ....	1.50	13.50
2-3 ft. ....	2.25	20.25
3-4 ft. ....	3.00	27.00

<b>GALAX aphylla</b> , <b>GALAX</b>		
A very lovely little evergreen herb with delicate white flower spikes up to two feet or more in May. The beautiful heart-shaped leaves are glossy green, turning brilliant scarlet in autumn when exposed to the sun. A fine groundcover plant for Rhododendrons, Azaleas, etc.		
Strong plants .....	1.00	9.00

<b>GAYLUSSACIA brachycera</b> , <b>BOX HUCKLEBERRY</b>		
Fine native evergreen groundcover, with white or pinkish flowers in May-June, followed by blue fruit in July or August. Very rare.		
3-6 in. spread (pot grown) .....	1.25	11.25

<b>GENISTA pilosa</b> , <b>SILKYLEAF WOADWAXEN</b>		
Low prostrate shrub with bright green ascending branches and yellow pea-shaped flowers in short racemes in June.		
12-15 in. ....	2.50	

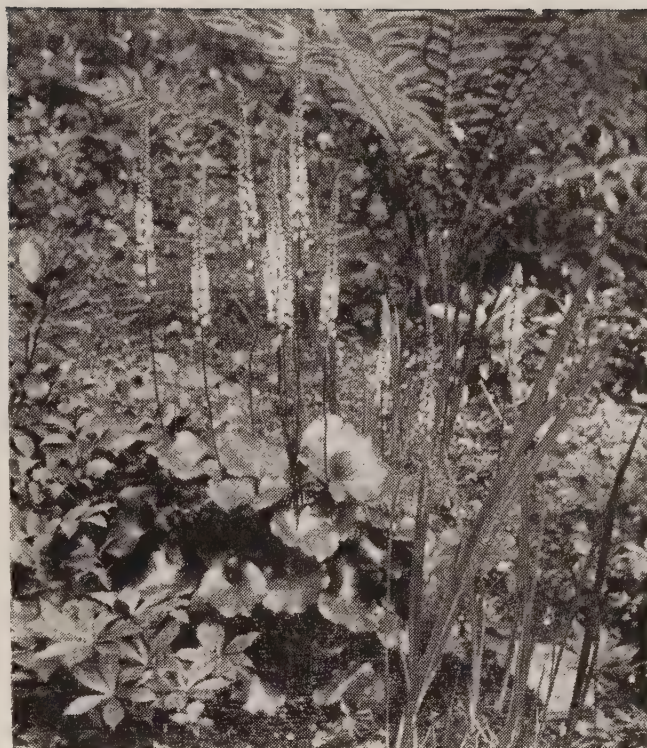

<b>GINGKO biloba</b> , <b>GINGKO</b> , 80-130 ft.		
A picturesque tree from China, relic of an ancient group. Curious fan-shaped leaves.		
3-4 ft. ....	2.00	

**MOVING LARGE SPECIMEN TREES.** Our tree moving equipment is especially designed for safely transplanting large Evergreens or Shade Trees up to almost 1 foot in diameter. We have many handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little disturbance to the root systems, largely eliminating risks.

## *The Lovely* **G A L A X**

This beautiful native plant carpets hundreds of acres of woodland floor in the Southern Appalachian region.

It will flourish in the North in woodland humus-filled soils, and in the garden where such soil conditions can be provided.

**HALESIA carolina**, CAROLINA SILVERBELL, 10-25 ft.      Each      Per 10  
A fine shrub, with handsome white bell-shaped flowers in early spring. Yellow autumn foliage.

5-6 ft heavy clumps .....	7.00	
6-8 ft. heavy clumps .....	10.00	

**HALESIA monticola**, MOUNTAIN SILVERBELL, 30-100 ft.  
White pendulous bell-shaped flowers in May (rarely pinkish) give this native tree unusual appeal. Attractive striped bark when young, scaly later. Another fine Kelsey introduction.

3-4 ft. ....	3.00	27.00
4-5 ft. ....	4.50	40.00
5-6 ft. ....	6.00	54.00

**HAMAMELIS vernalis**, VERNAL WITCHHAZEL, 6-15 ft.  
A real gem. The fragrant yellow flowers, the sepals reddish inside, appear on warm days from January to March. Fine heavy green foliage, turning yellow in autumn.

3-4 ft. ....	2.25	20.25
4-5 ft. ....	3.00	27.00

**HAMAMELIS virginiana**, COMMON WITCHHAZEL, 10-20 ft.

Bright yellow flowers in September-October.

4-5 ft. ....	2.25	20.25
5-6 ft. ....	3.00	27.00

H. P. K.

**Grandfather Mountain, in North Carolina where some of our most rare and beautiful native plants are found.**

<b>HYDRANGEA arborescens grandiflora</b> , SNOWHILL	Each	Per 10
HYDRANGEA, 3-6 ft.		
Very showy white flowers in June or July. A fine border shrub.		
18-24 in. ....	1.25	11.25
<b>HYDRANGEA paniculata</b> , PANICLE HYDRANGEA, 8-30 ft.		
White flowers in August-September. A very beautiful Japanese species, usually a large shrub but occasionally treelike.		
3-4 ft. ....	1.75	15.75
<b>HYDRANGEA paniculata (grandiflora)</b> , Hv. PEEGEE		
HYDRANGEA, 6 ft.		
The common showy variety, with large trusses of white flowers, turning to pink shades later.		
2-3 ft. ....	1.25	11.25
<b>ILEX glabra</b> , INKBERRY, 4-6 ft.		
Hardy evergreen shrub holly, with glossy green leaves and black fruit. Fine in the ericaceous border, and in foundation plantings.		
9-12 in. B&B ....	2.00	18.00
12-15 in. B&B ....	3.00	27.00
<b>ILEX montana</b> , MOUNTAIN WINTERBERRY, 10-40 ft.		
Small white flowers in May. Brilliant scarlet fruit in Fall. A rare Carolina mountain species. Not evergreen.		
5-6 ft. ....	3.50	31.50
6-7 ft. ....	5.00	
<b>ILEX verticillata</b> , COMMON WINTERBERRY, 6-12 ft.		
In June and July the white flowers appear. In Fall comes the bright red persistent fruit.		
3-4 ft. ....	1.50	13.50
4-5 ft. ....	2.25	20.00

<b>JUGLANS nigra, EASTERN BLACK WALNUT, 75-150 ft.</b>			Each	Per 10
A tall tree with deeply furrowed bark and handsome dark green foliage.				
2-3 ft. ....	1.50	13.50		
3-4 ft. ....	2.00	18.00		
<b>JUNIPERUS chinensis (pfitzeriana), Hv. PFITZER</b>				
CHINESE JUNIPER, 3-8 ft.				
A very hardy and popular wide spreading form with green or grayish-green foliage. Fast growing.				
12-15 in. spread .....	2.75			
<b>JUNIPERUS chinensis sargentii, SARGENT CHINESE</b>				
JUNIPER				
Fine evergreen with creeping stems and ascending branches. Splendid groundcover.				
9-12 in. spread B&B .....	2.00	18.00		
12-15 in. spread B&B .....	3.00	27.00		
<b>JUNIPERUS communis depressa, OLDFIELD COMMON</b>				
JUNIPER, 2-4 ft.				
Rarely exceeding four feet in height, and usually almost prostrate. This fine hardy native evergreen is one of the most valuable for landscape purposes.				
18-24 in. spread B&B .....	3.00	27.00		
2-3 ft. spread B&B .....	4.50	40.50		
<b>JUNIPERUS communis hibernica, IRISH JUNIPER, 6-10 ft.</b>				
A narrow columnar variety, not long-lived.				
15-18 in. B&B .....	1.50	13.50		
18-24 in. B&B .....	2.00	18.00		
<b>JUNIPERUS communis suecica, SWEDISH JUNIPER, 6-10 ft.</b>				
Columnar form with bluish-green leaves.				
15-18 in. B&B .....	1.50	13.50		
18-24 in. B&B .....	2.00	18.00		
<b>JUNPERUS horizontalis, CREEPING JUNIPER</b>				
Prostrate, with long trailing branches, very hardy. Foliage green or bluish-green.				
12-15 in. spread B&B .....	2.50	22.50		
<b>JUNIPERUS horizontalis douglasi, WAUKEGAN CREEP-ING JUNIPER</b>				
Similar to above, but with bright steel-blue foliage.				
12-15 in. spread B&B .....	2.50	22.50		

MOUNTAINLAUREL KALMIA

**JUNIPERUS horizontalis plumosa, ANDORRA CREEPING JUNIPER**      Each      Per 10

Not as prostrate, foliage green in summer, purplish in fall and winter.

12-15 in. spread B&B .....	2.50	22.50
----------------------------	------	-------

**JUNIPERUS sabina, SAVIN JUNIPER, 4-15 ft.**

A green foliated spreading type. Will do well on limestone soils.

15-18 in. B&B .....	3.00	27.00
18-24 in. B&B .....	4.00	36.00

**JUNIPERUS squamata, SINGLESEED JUNIPER**

Another fine low green-foliated type, with trailing branches turning up at the tips.

9-12 in. spread B&B .....	1.75	15.75
12-15 in. spread B&B .....	2.50	22.50

**JUNIPERUS virginiana, EASTERN REDCEDAR, 30-90 ft.**

We offer the hardy columnar New England type, not to be confused with southern forms.

3-4 ft. B&B .....	5.00	45.00
4-5 ft. B&B .....	6.50	58.50
5-6 ft. B&B .....	8.50	76.50
6-8 ft. B&B .....	12.00	108.00
8-10 ft. B&B .....	16.00	
10-12 ft. B&B .....	22.00	
12-14 ft. B&B .....	30.00	

**JUNIPERUS virginiana glauca, SILVER REDCEDAR, 30-60 ft.**

A pyramidal form of irregular growth. Very desirable.

12-14 ft. ....	30.00
----------------	-------

<b>KALMIA angustifolia</b> , LAMBKILL KALMIA, 2-4 ft.	Each	Per 10
This small evergreen shrub has clusters of lavender-rose to crimson flowers in June-July. Prefers a peaty soil.		
9-12 in. collected .....	1.25	11.25

<b>KALMIA latifolia</b> , MOUNTAINLAUREL KALMIA, 6-25 ft.		
In May or June this choice native evergreen shrub presents a gorgeous spectacle, with its white or blush-pink clustered flowers. A fine companion for Rhododendrons and Azaleas.		
12-15 in. B&B .....	3.00	
15-18 in. B&B .....	4.00	
18-24 in. B&B .....	5.00	
2-3 ft. B&B .....	7.00	
3-4 ft. B&B .....	11.00	

<b>KERRIA japonica</b> , JAPANESE KERRIA, 5-6 ft.		
Bright green foliage and vivid green branches. Showy yellow flowers in Spring.		
18-24 in. ....	1.25	11.25
2-3 ft. ....	1.75	15.75

<b>KERRIA japonica</b> , Hv. DOUBLE JAPANESE KERRIA, 5-6 ft.		
The popular double-flowered form.		
18-24 in. ....	1.25	11.25
2-3 ft. ....	1.75	15.75

<b>KOLKWITZIA amabilis</b> , BEAUTYBUSH, 6-10 ft.		
Arching sprays of rich pink flowers in June. Introduced by the late E. H. Wilson, he considered it perhaps the showiest of his Asiatic introductions.		
2-3 ft. ....	1.50	13.50
3-4 ft. ....	2.25	20.25

<b>xLABURNUM watereri</b> , WATERER LABURNUM, 12-20 ft.		
Beautiful small tree, with showy pendulous racemes of golden yellow flowers in May or early June.		
5-6 ft. ....	6.00	

<b>LARIX leptolepis</b> , JAPANESE LARCH, 60-100 ft.		
Very rapid growth. Handsome as a lawn specimen. Leaves appear in early spring.		
12-14 ft. B&B .....	30.00	
16-18 ft. B&B .....	40.00	
18-20 ft. B&B .....	55.00	

<b>LEIOPHYLLUM buxifolium prostratum</b> , ALLEGANY SANDMYRTLE, 5-9 in.		Each	Per 10
A tiny dwarf evergreen gem, with miniature clusters of starlike flowers in May. Found high in the Southern Appalachian Mountains, it is entirely hardy. A rock garden is a natural home for this little treasure.			
6-9 in. spread	.....	1.25	11.25
<b>LEUCOTHOE catesbaei</b> , DROOPING LEUCOTHOE, 4-6 ft.			
Glossy green foliage and white flower clusters in April or May on arching branches. Best in partial shade. The graceful curving branches of unique value as a background for flower arrangements.			
15-18 in. B&B	.....	3.50	31.50
18-24 in. B&B	.....	4.50	40.50
2-3 ft. B&B	.....	6.00	54.00
3-4 ft. B&B	.....	8.00	72.00
<b>LIGUSTRUM amurense</b> , AMUR PRIVET, 6-15 ft.			
White flowers in June or July, similar to California Privet, but the Amur Privet is entirely hardy. A dependable hedge plant. Attractive black fruit.			
2-3 ft. (35.00 per 100)	.....	.45	4.00
<b>xLIGUSTRUM ibolium</b> , IBOLIUM PRIVET, 6-15 ft.			
White flowers June-July. A fine hardy hedge plant. Black fruit.			
2-3 ft. (30.00 per 100)	.....	.40	3.50
<b>LONICERA korolkowi</b> , Hv. BROAD BLUELEAF HONEYSUCKLE, 8-12 ft.			
An unusual shrub, with rose-colored flowers in May or June, contrasting with the bluish foliage. Bright red berries in August.			
18-24 in.	.....	1.50	13.50
2-3 ft.	.....	2.00	18.00
<b>LONICERA</b> , Hv. RED TATARIAN HONEYSUCKLE, 6-12 ft.			
Light crimson flowers in May. Bright green foliage. Globose red berries in July or August. This and the two following varieties are deservedly popular for their ornamental value.			
2-3 ft.	.....	1.25	11.25
<b>LONICERA</b> , Hv. ROSY TATARIAN HONEYSUCKLE, 6-12 ft.			
Pink flowered form of above. Give these Honeysuckle plenty of room to develop.			
2-3 ft.	.....	1.25	11.25
<b>LONICERA</b> , Hv. WHITE TATARIAN HONEYSUCKLE, 6-12 ft.			
White flowers in May.			
2-3 ft.	.....	1.25	11.25

<b>LYONIA mariana</b> , STAGGERBUSH LYONIA, 4-7 ft.	Each	Per 10
Handsome low shrub with white or pinkish urn shaped flowers profusely borne.		
18-24 in. ....	2.75	
2-2½ ft. ....	3.50	

<b>MAGNOLIA tripetala</b> , UMBRELLA MAGNOLIA, 20-35 ft.		
Huge leaves 10-20 inches long, and large white flowers 7 or more inches across in May. A fine ornamental tree with interesting rose-colored fruit.		
2-3 ft. B&B .....	3.50	31.50

FLOWERING CRABAPPLES

These are among the most ornamental of trees, valued for their showy flowers and bright fruit.

<b>xMALUS atrosanguinea</b> , CARMINE CRABAPPLE, 15-20 ft.		
The brilliant carmine flowers in May make this one of the most popular flowering trees. Grows as broad as tall. Small red fruit in Fall. A great attraction for birds.		
3-4 ft. ....	3.25	29.25
4-5 ft. ....	4.00	36.00
5-6 ft. ....	5.00	45.00

<b>MALUS baccata</b> , SIBERIAN CRABAPPLE, 30-45 ft.		
Lovely Asiatic species. Showy white flowers in Spring, and red or rarely yellow fruit in Fall. Very hardy.		
5-6 ft. ....	5.00	
6-7 ft. ....	7.00	
7-8 ft. ....	9.50	
8-10 ft. ....	13.50	

<b>MALUS baccata mandshurica</b> , MANCHURIAN CRAB-APPLE, 15-20 ft.		
Fine species from China and Japan. Large pure white fragrant flowers in May, dark scarlet fruit.		
4-5 ft. ....	3.50	

<b>xMALUS</b> , Hv. DOLGO CRABAPPLE, 20-25 ft.		
Beautiful with its large white flowers early in May, it has really outstanding ornamental value because of its large bright red fruit. Very fine.		
6-7 ft. ....	7.00	63.00
7-8 ft. ....	9.50	
8-10 ft. ....	13.50	

<b>MALUS floribunda, JAPANESE FLOWERING CRABAPPLE,</b> 20-30 ft.	Each	Per 10
---	------	--------

In early May this tree is covered with flowers. The buds are rich carmine, the full-blown flower white or blush. One of the very best crabapples, most attractive to birds, especially pheasants, robins and cedar-waxwings.

4-5 ft. ....	3.50	31.50
5-6 ft. ....	5.00	45.00
6-7 ft. ....	7.00	
7-8 ft. ....	9.50	

**MALUS floribunda, Hv. KELSEY CRABAPPLE, 25-40 ft.**  
A unique sport of the preceding species. The unbelievable profusion of snow-white flowers in May makes this one of our finest ornamental trees. Originated at Kelsey-Highlands Nursery. Yellow fruit.

7-8 ft. ....	10.00
8-10 ft. ....	15.00
10-12 ft. ....	22.00

**MALUS floribunda, Hv. BOBWHITE CRABAPPLE, 20-30 ft.**  
Another fine clon, selected at the Arnold Arboretum and named because of its bird-attracting value. Pink buds white flowers in May.

4-5 ft. ....	4.50
5-6 ft. ....	6.00
6-7 ft. ....	8.00

**MALUS halliana spontanea, SMALLFLOWER HALLS CRABAPPLE, 10-15 ft.**  
A small flowering tree with white flowers on drooping pedicels in May.

10-12 ft. ....	18.00
----------------	-------

**xMALUS, Hv. HOPA CRABAPPLE (M. baccata x M. pumila niedzwetziana), 12-20 ft.**  
A remarkable tree covered with rose-red flowers in May. The handsome fruit is red inside and out. Very hardy.

4-5 ft. ....	3.50	31.50
5-6 ft. ....	5.00	45.00
6-7 ft. ....	7.50	

**MALUS hupehensis, TEA CRABAPPLE, 20-30 ft.**  
Irregular in growth, the long branches are loaded with pink flowers clustered along the stem in May. Fruit is yellow with red cheek. The Chinese brew a kind of tea from its leaves, hence its name.

6-7 ft. ....	7.00
7-8 ft. ....	9.50
8-10 ft. ....	13.50

<b>MALUS ioensis</b> , Hv. BECHTEL CRABAPPLE (plena), 20 ft. Double pink fragrant flowers like small roses in late May.	Each	Per 10
4-5 ft. ....	4.50	
<b>xMALUS micromalus</b> , MIDGET CRABAPPLE, 15-20 ft. A handsome small tree of upright habit, deservedly popular for its fine pink flowers. Bright yellow fruit September-October.		
5-6 ft. ....	6.00	
6-7 ft. ....	8.00	
7-8 ft. ....	11.00	
<b>MALUS purpurea</b> , Hv. ELEY CRABAPPLE, 15-25 ft. Vinous-red flowers in May, and handsome purple fruit.		
4-5 ft. ....	3.50	31.50
<b>MALUS robusta</b> , CHERRY CRABAPPLE, 20-30 ft. Large white flowers in May followed by fine red fruit. One of the larger growing Crabapples.		
6-7 ft. ....	7.00	
7-8 ft. ....	9.50	
8-10 ft. ....	14.00	
10-12 ft. ....	20.00	
<b>MALUS robusta</b> , Hv. COLUMN CHERRY CRABAPPLE, 20-30 ft. Rare upright form. Fine for small gardens.		
6-7 ft. ....	8.50	
7-8 ft. ....	12.00	
<b>MITCHELLA repens</b> , PARTRIDGEBERRY, 3-4 in. White flowers in June or July, scarlet fruit in September. Fine little native evergreen groundcover for shady or semi-shady locations.		
6-9 in. ....	.75	6.75
<b>MORUS alba tatarica</b> , RUSSIAN MULBERRY, 30-50 ft. Small tree with bushy head. The small red fruit is most attractive to birds.		
3-4 ft. ....	2.00	18.00
<b>MYRICA pensylvanica (carolinensis)</b> , NORTHERN BAYBERRY, 3-8 ft. Spreading undershrub, fine for borders or roadside planting. The curious waxy-white fruit is used for making the famous Bayberry candles.		
9-12 in. ....	.75	6.75
12-15 in. ....	1.50	13.50
15-18 in. ....	2.25	20.25
18-24 in. ....	3.00	27.00

<b>NYSSA sylvatica</b> , TUPELO, 20-60 ft.	Each	Per 10
A picturesque native tree especially notable for its brilliant autumn coloring.		
2-3 ft. B&B .....	3.50	
3-4 ft. B&B .....	4.50	
<b>OXYDENDRUM arboreum</b> , SOURWOOD, 15-60 ft.		
The mass of white flowers in late June, July and early August make this one of our most valuable flowering trees. Brilliant scarlet foliage in autumn.		
4-5 ft. ....	6.00	
5-6 ft. ....	7.50	
<b>PACHISTIMA canbyi</b> , CANBY PACHISTIMA, 9 in.		
Dwarf evergreen shrub, especially valuable as a border or groundcover plant in half-shady or open locations. A native of mountain regions in Virginia and W. Virginia.		
3-6 in. (60.00 per 100) .....	.80	7.20
6-9 in. (80.00 per 100) .....	1.00	9.00
<b>PACHYSANDRA terminalis</b> , JAPANESE PACHYSANDRA, 7 in.		
A fine hardy evergreen groundcover plant, best in light shade.		
Pot grown (30.00 per 100) .....	.40	3.50
<b>PHELLODENDRON sachalinense</b> , SAKHALIN CORK-TREE, 30-50 ft.		
Hardy Asiatic tree. Yellowish-green flowers in June followed by persistent black fruit. Foliage bright yellow in Fall.		
7-8 ft. ....	6.00	
8-10 ft. ....	9.00	
<b>PHILADELPHUS coronarius</b> , SWEET MOCKORANGE, 10-15 ft.		
A favorite old-fashioned shrub with fragrant white flowers in May or June.		
3-4 ft. ....	1.50	13.50
<b>xPHILADELPHUS virginalis</b> , Hv. VIRGINAL MOCK-ORANGE, 6-8 ft.		
A universal favorite for its large semi-double fragrant white flowers in June.		
2-3 ft. ....	1.50	13.50
<b>PHOTINIA villosa</b> , ORIENTAL PHOTINIA, 6-15 ft.		
White flowers in June, followed by bright red fruit that persists into Winter. Bright red leaves in autumn.		
3-4 ft. ....	2.00	18.00
4-5 ft. ....	2.50	22.50

<b>PICEA abies, NORWAY SPRUCE, 60-150 ft.</b>			Each	Per 10
A large and fast-growing evergreen with rich green foliage, much planted for screens and windbreaks.				
2½-3 ft. B&B	.....	4.00	36.00	
3-4 ft. B&B	.....	5.00	45.00	
4-5 ft. B&B	.....	6.50		
5-6 ft. B&B	.....	9.00		

<b>PICEA asperata, DRAGON SPRUCE, 40-100 ft.</b>				
Introduced from China in 1910, this most vigorous of Spruces has proven to be one of our finest evergreens. Very hardy, standing more wind and seashore exposure than any other evergreen we know of. Very compact.				
3-4 ft. B&B extra heavy specimen	.....	12.00		
4-5 ft. B&B extra heavy specimen	.....	16.00		
5-6 ft. B&B extra heavy specimen	.....	20.00		
6-7 ft. B&B extra heavy specimen	.....	27.50		
7-8 ft. B&B extra heavy specimen	.....	35.00		

<b>PICEA engelmanni, ENGELMANN SPRUCE, 80-150 ft.</b>				
This choice Rocky Mountain conifer has green, blue-green or rarely steel-blue leaves. Similar to Colorado Spruce, but much softer foliage.				
18-24 in. B&B	.....	4.00	36.00	

<b>PICEA glauca, WHITE SPRUCE, 60-120 ft.</b>				
Fine northern species, useful for hedges, as a specimen, or as a screen.				
2-3 ft. B&B	.....	4.25	38.25	
3-4 ft. B&B	.....	5.50	49.50	
4-5 ft. B&B	.....	7.00	63.00	
5-6 ft. B&B	.....	10.00	90.00	
6-8 ft. B&B	.....	14.00		

<b>PICEA glauca albertiana, Hv. DWARF ALBERTA SPRUCE, (conica), 6 ft.</b>				
A dwarf, compact and slow-growing form of the preceding species, greatly valued for rock-garden or wherever a miniature upright tree is desired.				
9-12 in. B&B	.....	3.00	27.00	

<b>PICEA jezoensis, YEDDO SPRUCE, 80-140 ft.</b>				
A unique and conspicuous conifer that must be seen to be appreciated. Green, with blue high-lights.				
4-5 ft. B&B	.....	9.00		
5-6 ft. B&B	.....	12.00		

*For 1-4 plants of a kind and size use the single rate, for 5-24 the ten rate.*

<b>PICEA omorika, SERBIAN SPRUCE, 60-100 ft.</b>	Each	Per 10
Considered by E. H. Wilson the finest Spruce for northern latitudes. Narrowly pyramidal. Conspicuous foliage, with leaves lustrous dark green beneath, and with broad bluish-white bands above.		
4-5 ft. B&B .....	8.00	
5-6 ft. B&B .....	12.50	
6-7 ft. B&B .....	18.00	

<b>PICEA pungens, COLORADO SPRUCE, 60-140 ft.</b>		
A favorite Spruce for lawns. Very hardy, suitable for shore planting.		
18-24 in. B&B .....	3.50	31.50
2-3 ft. B&B .....	5.00	45.00
3-4 ft. B&B .....	7.50	67.50
10-12 ft. B&B .....	35.00	

<b>PICEA pungens glauca, BLUE COLORADO SPRUCE, 60-140 ft.</b>		
The familiar and popular "Blue Spruce" seen everywhere.		
18-24 in. B&B .....	4.50	40.50
2-3 ft. B&B .....	6.00	54.00
3-4 ft. B&B .....	8.50	76.50
10-12 ft. B&B .....	40.00	

<b>PICEA pungens, Hv. KOSTER BLUE SPRUCE, 60 ft.</b>		
Brilliant bluish leaves on a handsome tree of regular growth.		
8-10 ft. B&B .....	60.00	
10-12 ft. B&B .....	75.00	
12-14 ft. B&B .....	100.00	

<b>PIERIS floribunda, MOUNTAIN PIERIS, 3-6 ft.</b>		
Showy white flowers in April or early May, on a spreading evergreen shrub. Very hardy and dependable.		
9-12 in. spread B&B .....	2.50	22.50
12-15 in. spread B&B .....	3.50	31.50
15-18 in. spread B&B .....	4.50	40.50
18-24 in. spread B&B .....	6.00	
2-2½ ft. spread B&B .....	7.50	
2½-3 ft. spread B&B .....	9.00	

<b>PIERIS japonica, JAPANESE PIERIS, 5-9 ft.</b>		
More upright than preceding, with showy white flowers in late April or early May. Thick shiny leaves, turning bronze in Winter.		
9-12 in. B&B .....	2.50	
12-15 in. B&B .....	3.50	
15-18 in. B&B .....	5.00

6-8 ft.	.....	2.50	22.50
8-10 ft.	.....	3.00	27.00
10-12 ft.	.....	3.50	31.50

<b>PRUNUS besseyi</b> , BESSEY CHERRY, 3-5 ft.			
Hardy western species, with white flowers in early spring, and sweet purple-black fruit.			
3-4 ft.	.....	2.25	20.25

Moving Large Specimen Trees. Our tree moving equipment is especially designed for safely transporting large Evergreen or Shade Trees up to almost 1 foot in diameter. We have many handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little disturbance to the root systems, largely eliminating risks.

*Double Pink*  
**ALMOND CHERRY**

One of the most popular  
flowering shrubs

2-3 ft., \$1.50 each, \$13.50 per 10.

FOTO BY H. P. K., JR

<b>PRUNUS glandulosa</b> , Hv. DOUBLE PINK ALMOND CHERRY, 5 ft. Commonly known as Double Pink Flowering Almond, this popular shrub has masses of double pink flowers in May.	Each	Per 10
2-3 ft. ....	1.50	13.50
<b>PRUNUS glandulosa</b> , Hv. DOUBLE WHITE ALMOND CHERRY, 5 ft. Pure white form of above.		
2-3 ft. ....	1.50	13.50
<b>PRUNUS maritima</b> , BEACH PLUM, 4-7 ft. White masses of flowers in May, followed by green fruit which ripens to purple. Unexcelled for jam and jelly, which is a famous New England product.		
2-3 ft. ....	1.50	13.50
3-4 ft. heavy ....	3.00	27.00
4-5 ft. heavy ....	4.00	36.00
<b>PRUNUS tomentosa</b> , MANCHU CHERRY, 8-12 ft. White or pinkish flowers in April. Luscious red fruit that make fine jam, jelly or wine, if you can get it before the birds do.		
2-3 ft. ....	1.50	13.50
3-4 ft. ....	2.00	18.00
<b>PRUNUS triloba</b> , Hv. MULTIPLEX (plena), FLOWERING PLUM, 20-30 ft. A favorite ornamental shrub or small tree, with double pink flowers in early Spring.		
3-4 ft. ....	2.50	22.50
<b>PSEUDOTSUGA taxifolia</b> , DOUGLASFIR, 50-200 ft. A pyramidal tree of dense, yet graceful habit. Very hardy. Foliage green or bluish-green.		
3-4 ft. B&B ....	6.00	54.00
18-20 ft. B&B ....	90.00	

<b>QUERCUS alba, WHITE OAK, 75-100 ft.</b>	Each	Per 10
One of our noblest trees, with stout branches forming a broad, irregular, open head. Bright green leaves, turn deep vinous-red or violet-purple in Fall.		
6-8 ft. ....	6.00	54.00
8-10 ft. ....	9.00	81.00

<b>QUERCUS borealis, NORTHERN RED OAK, 60-80 ft.</b>		
Fine as shade tree or for lawn. Rapid growing. Leaves dark red in autumn.		
8-10 ft. ....	9.00	81.00
10-12 ft. 2-2½ in. cal. ....	12.00	108.00
12-14 ft. 2½-3 in. cal. ....	16.00	144.00

3-4 ft. ....	1.50	13.50
4-5 ft. ....	2.25	20.25

## RHODODENDRONS

We list here some of the most desirable native and exotic species. All prefer a rich acid, peaty, well-drained soil for best results.

<b>RHODODENDRON canadense</b> , RHODORA, 2-3 ft.	Each	Per 10
A much branched deciduous shrub, valued for its early rose-purple flowers in April.		
18-24 in. B&B .....	3.50	31.50

<b>RHODODENDRON canadense albiflorum</b> , WHITE RHODORA, 2-3 ft.	
Very rare and lovely pure white form. Only a few available.	
15-18 in. B&B .....	12.00

<b>RHODODENDRON carolinianum</b> , CAROLINA RHODODENDRON, 4-8 ft.	
Pink flowers in May-June. A hardy American species introduced by Harlan P. Kelsey many years ago. Blooms profusely when still a small plant.	
15-18 in. B&B .....	5.00

<b>RHODODENDRON carolinianum album</b> , WHITE CAROLINA RHODODENDRON, 4-8 ft.	
Also introduced by Harlan P. Kelsey, this white form is especially attractive when planted with the pink.	
15-18 in. B&B .....	5.00

<b>RHODODENDRON catawbiense</b> , CATAWBA RHODODENDRON, 7-20 ft.		
Bright red-purple flowers in May and June. Very hardy. Bright glossy green leaves.		
15-18 in. B&B .....	5.00	45.00
18-24 in. B&B .....	6.25	55.00
2-2½ ft. B&B .....	7.50	67.50

<b>RHODODENDRON laetivirens</b> , WILSON RHODODENDRON, 4-5 ft.		
A compact low shrub with rose-colored flowers in June or early July. Glossy green leaves.		
9-12 in. spread B&B .....	3.50	31.50
12-15 in. spread B&B .....	4.50	40.50
15-18 in. spread B&B .....	6.00	54.00

<b>RHODODENDRON maximum, ROSEBAY RHODODENDRON, 10-40 ft.</b>		Each	Per 10
White or pink-tinged flowers in June or July. A fine hardy American species.			
18-24 in. B&B	.....	4.50	40.50
2-21½ ft. B&B	.....	5.50	49.50
2½-3 ft. B&B	.....	7.00	63.00
3-3½ ft. B&B	.....	10.00	90.00
3½-4 ft. B&B	.....	14.00	
4-5 ft. B&B	.....	20.00	

<b>RHODODENDRON minus, PIEDMONT RHODODENDRON, 6-10 ft.</b>			
Similar to Carolina Rhododendron, but flowering later, after the young leaves are well developed.			
4-5 ft. B&B	.....	16.00	
5-6 ft. B&B	.....	20.00	

<b>RHODODENDRON mucronulatum, KOREAN RHODODENDRON, 5-7 ft.</b>			
A fine deciduous species, especially valuable for its very early rose-colored flowers in late March or early April.			
15-18 in. B&B	.....	4.00	36.00
18-24 in. B&B	.....	5.00	45.00
2-2½ ft. B&B	.....	6.50	58.50
2½-3 ft. B&B	.....	8.50	76.50

<b>RHODODENDRON myrtifolium, MYRTLE RHODODENDRON, 4-5 ft.</b>			
A compact spreading shrub, with gray green leaves and light rose-pink flowers in June or early July.			
12-15 in. B&B	.....	4.50	

<b>RHODODENDRON smirnowi, SMIRNOW RHODODENDRON, hybrid seedlings, 4-7 ft.</b>			
Unusually large flower trusses in May or June. Varying shades of pink.			
15-18 in. B&B	.....	6.00	
18-24 in. B&B	.....	8.00	

<b>ROBINIA kelseyi, KELSEY LOCUST, 6-9 ft.</b>			
A very handsome and graceful shrub, with bright rose-colored flowers profusely borne in May or early June. Interesting purplish fruits.			
3-4 ft.	.....	2.00	

<b>ROBINIA leucantha</b>			
A very rare white locust, the beautiful flowers appearing in May. Only a very few plants available.			
2-3 ft.	.....	10.00	

<b>ROSA hugonis</b> , FATHER HUGO ROSE, 4-6 ft.	Each	Per 10
Bright yellow flowers in May or June. A general favorite.		
2-3 ft. ....	1.50	13.50
3-4 ft. ....	2.25	20.25
<b>ROSA rugosa</b> , RUGOSA ROSE, 3-5 ft.		
Upright shrub with large single reddish-purple flowers from May to September. Brilliant brick-red fruit. A splendid hedge plant. Attractive to birds. Especially useful along seashore.		
18-24 in. ....	1.25	11.25
<b>ROSA setigera</b> , PRAIRIE ROSE, 6-8 ft.		
Pink flowers in June on a half climbing shrub of vigorous growth. Very hardy.		
2-3 ft. ....	1.00	9.00
<b>xSALIX blanda</b> , WISCONSIN WEEPING WILLOW, 50 ft.		
Sometimes called the Niobe Willow, this fine tree has a wide spreading head and pendulous branches.		
5-6 ft. ....	3.00	27.00
<b>SALIX matsudana (tortuosa)</b> , Hv. CONTORTED HANKOW WILLOW, 30 ft.		
Very curious upright tree with twisted and contorted branches.		
5-6 ft. ....	6.00	
6-8 ft. ....	8.00	
8-10 ft. ....	11.00	
<b>SALIX purpurea</b> , Hv. DWARF PURPLEOSIER WILLOW, 4-5 ft.		
This fine species makes a compact, much-branched shrub, valuable for low hedges, or in the shrub border where a low plant is wanted.		
2-3 ft. ....	2.00	
3-4 ft. ....	3.00	
<b>SHORTIA galacifolia</b> , OCONEEBELLS, 6-9 in.		
Beautiful low native evergreen, with small galax-shaped leaves, and lovely white bell-shaped flowers in earliest spring.		
Clumps ....	1.25	
<b>SOPHORA japonica</b> , JAPANESE PAGODATREE, 50-80 ft.		
A round headed tree with spreading branches, especially valued for its huge panicles of yellowish-white flowers in August or September.		
5-6 ft. ....	10.00	90.00
6-7 ft. ....	15.00	
7-8 ft. ....	20.00	
8-10 ft. ....	25.00	

**SORBUS aucuparia**, EUROPEAN MOUNTAINASH, 40-60 ft.  
 White flowers in May, and bright red or orange-red clusters of fruit in August and September. This beautiful tree is attractive to birds.

EachPer 10

5-6 ft. ....	3.50	31.50
6-8 ft. ....	4.50	40.50
8-10 ft. ....	6.50	58.50

**SORBUS commixta**, KOREAN MOUNTAINASH, 20-25 ft.  
 Handsome small tree, creamy-white flowers in June bright red fruit in October-November.

3-4 ft. ....	1.50	13.50
--------------	------	-------

**SORBUS intermedia**, SWEDISH MOUNTAINASH, 25-30 ft.  
 Cream-white flowers in May, bright orange-red fruit in October and November.

4-5 ft. ....	2.50	22.50
5-6 ft. ....	3.50	31.50
6-8 ft. ....	4.50	40.50

**xSPIRAEA bumalda**, Hv. ANTHONY WATERER SPIREA,  
 2½-4 ft.  
 Compact shrub, with crimson flowers in June-July. Very free flowering.

18-24 in. .... 1.50

**SPIRAEA prunifolia**, BRIDALWREATH SPIREA, 6-9 ft.  
 White flowers in May or June.

18-24 in. .... 1.00 9.00  
 2-3 ft. .... 1.25 11.25

**SPIRAEA thunbergi**, THUNBERG SPIREA, 3-5 ft.  
 White flowers in April or May, orange and scarlet leaves in autumn.

18-24 in. .... 1.00 9.00  
 2-3 ft. .... 1.25 11.25

Beautiful SHORTIA  
 A Kelsey introduction.

Our Landscape Department can help with your garden problems, whether they be large or small.

<b>xSPIRAEA vanhouttei</b> , VANHOUTTE SPIREA, 7-9 ft.		Each	Per 10
Profuse showy white flowers in May, on a vigorous bushy shrub. Very popular as a tall hedge plant as well as for specimen planting.			
2-3 ft. ....	1.25		11.25
3-4 ft. ....	1.75		15.75
<b>SYMPHORICARPOS albus</b> , COMMON SNOWBERRY, 3-4 ft.			
Small pinkish flowers, showy white fruit.			
18-24 in. ....	1.00	•	9.00
2-3 ft. ....	1.25		11.25
3-4 ft. ....	1.50		13.50
<b>SYMPHORICARPOS orbiculatus</b> , INDIAN CURRANT CORALBERRY, 4-6 ft.			
Attractive for its red fruit, and crimson foliage in autumn.			
18-24 in. ....	1.00		9.00
2-3 ft. ....	1.25		11.25
<b>SYRINGA amurensis japonica</b> , JAPANESE TREE LILAC, 20-30 ft.			
Latest of the lilacs to bloom, with large masses of white flowers in June or July.			
6-7 ft. ....	4.00		36.00
7-8 ft. ....	5.50		49.50
<b>SYRINGA oblata dilatata</b> , KOREAN EARLY LILAC, 8-12 ft.			
Choice early blooming variety, with rosy-lilac or purple-lilac flowers in late April or May.			
2-3 ft. ....	2.00		18.00
3-4 ft. ....	2.50		22.50
4-5 ft. ....	3.25		29.25
<b>SYRINGA villosa</b> , LATE LILAC, 8-10 ft.			
Dense habit, with profuse rosy-lilac flowers in late May or June.			
18-24 in. ....	1.00		9.00
2-3 ft. ....	1.50		13.50
<b>SYRINGA vulgaris</b> , COMMON LILAC, 10-20 ft.			
Purple or lilac flowers in late April or May, on an upright shrub. An old favorite.			
3-4 ft. ....	2.00		18.00
<b>SYRINGA vulgaris alba</b> , WHITE COMMON LILAC, 15-30 ft.			
White flowers, one week earlier than Common Lilac.			
3-4 ft. ....	2.25		20.25

<b>TAXUS canadensis</b> , CANADA YEW, 2½-4 ft.	Each	Per 10
Hardy, low-spreading native evergreen, with bright green foliage, and red berries in August. Best in semi-shade, but will grow in full sun.		
12-15 in. spread B&B .....	3.00	27.00
15-18 in. spread B&B .....	4.25	38.25
18-24 in. spread B&B .....	5.50	49.50
2-2½ft. spread B&B .....	7.00	
<b>TAXUS cuspidata</b> , JAPANESE YEW ( <i>spreading form</i> ), 6-8 ft.		
Fine hardy species. This spreading form will eventually get fifteen feet or more across if untrimmed. Red berries in October-November.		
12-15 in. spread B&B .....	3.50	31.50
15-18 in. spread B&B .....	4.25	38.25
18-24 in. spread B&B .....	5.50	49.50
<b>TAXUS cuspidata</b> , JAPANESE YEW ( <i>upright form</i> ), 15-50 ft.		
Very useful for hedges, foundation plantings, or as a single specimen. Rich green foliage and red berries in autumn.		
12-15 in. B&B .....	3.50	31.50
15-18 in. B&B .....	4.50	40.50
18-24 in. B&B .....	6.00	54.00
<b>TAXUS cuspidata</b> , Hv. DWARF JAPANESE YEW ( <i>nana</i> ) 3-4 ft.		
Eventually wide-spreading, this slower growing and more compact form is very desirable.		
9-12 in. ....	3.50	
<b>TAXUS cuspidata</b> , Hv. THAYER YEW, 6-8 ft.		
A wide spreading, low bush with bright green leaves. Fruits freely with typical red berries.		
15-18 in. spread B&B .....	5.50	
18-24 in. spread B&B .....	7.00	
<b>xTAXUS media</b> , Hv. HATFIELD YEW, 6-12 ft.		
A compact conical bush with more or less upright branches. One of the finest for hedges.		
12-15 in. B&B .....	3.50	31.50
15-18 in. B&B .....	4.50	40.50
<b>xTAXUS media</b> , Hv. HICKS YEW, 6-12 ft.		
A narrow columnar form with upright branches. Splendid as an accent plant, or for hedge use.		
12-15 in. B&B .....	3.00	27.00
15-18 in. B&B .....	4.00	36.00
18-24 in. B&B .....	5.50	49.50
2-2½ft. B&B .....	7.00	

<b>THUJA occidentalis, EASTERN ARBORVITAE, 30-60 ft.</b>	Each	Per 10
This fine native evergreen is broadly pyramidal. Fine as a specimen or hedge plant.		
2-3 ft. B&B .....	3.25	29.25
3-4 ft. B&B .....	4.25	38.25
4-5 ft. B&B .....	6.00	54.00
5-6 ft. B&B .....	8.00	72.00
6-7 ft. B&B .....	11.00	99.00
7-8 ft. B&B .....	14.00	
<b>THUJA occidentalis, Hv. BOOTH GLOBE ARBORVITAE,</b> 2-3 ft. One of the best globose forms.		
12-15 in. B&B .....	2.25	20.25
15-18 in. B&B .....	3.00	27.00
<b>THUJA occidentalis, Hv. DOUGLAS PYRAMIDAL ARBOR-</b> <b>VITAE, 12-20 ft.</b> A dense columnar form with curious crowded frond- like branches. Very fine.		
18-24 in. B&B .....	2.75	24.75
2-3 ft. B&B .....	3.50	31.50
3-4 ft. B&B .....	4.50	40.50
4-5 ft. B&B .....	6.50	
<b>THUJA occidentalis, Hv. GEORGE PEABODY ARBOR-</b> <b>VITAE, 15-25 ft.</b> Pyramidal form with bright yellow leaves, especially the new growth.		
18-24 in. B&B .....	3.00	27.00
2-3 ft. B&B .....	4.00	36.00
3-4 ft. B&B .....	5.00	45.00
<b>THUJA occidentalis, Hv. PYRAMIDAL EASTERN ARBOR-</b> <b>VITAE, 15-20 ft.</b> Dense columnar form with short branches and rich green leaves.		
2-2½ ft. B&B .....	3.00	27.00
2½-3 ft. B&B .....	3.75	33.75
3-4 ft. B&B .....	4.50	40.50
4-5 ft. B&B .....	6.00	54.00
<b>THUJA occidentalis, Hv. QUEEN VICTORIA ARBOR-</b> <b>VITAE, 20-30 ft.</b> The tips of the young branches are almost white, giving this variety a unique appearance.		
18-24 in. B&B .....	3.00	27.00
2-2½ ft. B&B .....	4.00	36.00
2½-3 ft. B&B .....	5.50	49.50
3-4 ft. B&B .....	7.50	67.50

<b>THUJA occidentalis</b> , Hv. REID EASTERN ARBORVITAE, 3-5 ft.		Each	Per 10
Compact globose form, with bright green leaves.			
18-24 in. B&B	4.00	36.00	
<b>THUJA occidentalis</b> , Hv. ROSENTHAL EASTERN ARBOR- VITAE, 15-20 ft.			
Columnar form with lustrous dark green leaves.			
18-24 in. B&B	2.75		
2-2½ ft. B&B	3.50		
2½-3 ft. B&B	4.50		
<b>THUJA occidentalis</b> , Hv. TOM THUMB EASTERN ARBOR- VITAE, 4-6 ft.			
Most popular bright green globose form.			
18-24 in. B&B	4.00	36.00	
<b>THUJA occidentalis</b> , Hv. WARE EASTERN ARBORVITAE, 15-30 ft.			
Compact broadly-pyramidal form, with heavier foli- age than the Eastern Arborvitae. A very good hedge plant.			
18-24 in. B&B	3.00		
2-2½ ft. B&B	4.00		
2½-3 ft. B&B	5.00		
3-4 ft. B&B	6.50		
<b>THUJA occidentalis</b> , Hv. WINTERGREEN PYRAMIDAL EASTERN ARBORVITAE, 20-40 ft.			
Similar to Eastern Arborvitae, but a little more com- pact growth and holding its color much better in winter.			
18-24 in. B&B	2.75		
2-3 ft. B&B	3.25		
3-4 ft. B&B	4.25		
4-5 ft. B&B	6.00		
<b>TILIA americana</b> , AMERICAN LINDEN, 80-130 ft.			
Fine native tree. The "Basswood" of colonial days. Very hardy, and frequently used as an avenue tree.			
6-8 ft.	4.00		
<b>TILIA cordata</b> , LITTLELEAF LINDEN, 60-90 ft.			
One of the very finest shade and avenue trees, the "Bee Tree" of Europe. Fragrant yellowish-white flowers in July.			
6-8 ft. 1½-2 in. cal.	6.00	54.00	
8-10 ft. 2-2½ in. cal.	10.00	90.00	
10-12 ft. 2½-3 in. cal.	18.00		
12-14 ft. 3-3½ in. cal.	25.00		

PHOTO BY HERBERT W. GLEASON

**CAROLINA HEMLOCK (*Tsuga caroliniana*) as grown at the Arnold Arboretum. A Kelsey introduction.**

**TSUGA canadensis, CANADIAN HEMLOCK, 50-100 ft.** Each Per 10  
 Handsome for lawn or forest planting. Especially useful for tall hedges. One of our finest ornamental evergreens.

2-3 ft. B&B .....	5.00	45.00
3-4 ft. B&B .....	7.50	67.50
4-5 ft. B&B .....	10.00	90.00

**TSUGA caroliniana, CAROLINA HEMLOCK, 40-75 ft.**  
 Introduced to cultivation by Harlan P. Kelsey. Prof. Sargent considered this "The handsomest conifer we can grow in New England." Unique in habit with dark, dense tufted foliage on sweeping pendulous branches.

2-3 ft. B&B .....	5.50
3-4 ft. B&B .....	8.00

18-20 ft. 3 <sup>1</sup> / <sub>2</sub> -4 in. cal. ....		32.00	

<b>ULMUS pumila, SIBERIAN ELM, 40-50 ft.</b>			
Popular fast growing tree, often erroneously called Chinese Elm (which name properly belongs to <i>Ulmus parvifolia</i> ).			
4-5 ft. ....		1.25	11.25
5-6 ft. ....		2.00	18.00
6-7 ft. ....		3.00	27.00
7-8 ft. ....		4.00	36.00

<b>ULMUS, WASHINGTON ELM, 60-120 ft.</b>			
Authentic descendents of the famous Cambridge, Washington Elm, under which George Washington took command of the Continental Army. This historic tree is now gone, but these fine grafts are available to all.			
8-10 ft. ....		10.00	
10-12 ft. ....		15.00	

<b>VACCINIUM corymbosum, Highbush Blueberry, 6-12 ft.</b>			
Fine native shrub, the young branches yellowish-green or red. Dense clusters of white or pinkish flowers in May, and blue or blue-black edible berries in July or August.			
18-24 in. B&B ....		1.25	11.25
2-3 ft. B&B ....		2.25	20.25
3-4 ft. B&B ....		3.00	27.00
4-5 ft. B&B ....		4.50	40.50

<b>VACCINIUM vitisidaea majus, Shore Cowberry, 6-12 in.</b>			
Low evergreen shrub, with white or pinkish flowers in May and dark red fruit in August-October. Fine as a groundcover, or for the rock garden.			
3-6 in. spread ....		.90	8.10
6-9 in. spread ....		1.25	11.25

<b>VACCINIUM vitisidaea minor, Mountain Cowberry, 4-6 in.</b>			
Even more dwarf, forming dense evergreen mat. Flowers deeper color, sometimes red.			
3-6 in. spread ....		1.00	9.00
6-9 in. spread ....		1.35	12.00

<b>VIBURNUM carlesi</b> , KOREANSPICE VIBURNUM, 4-8 ft.	Each	Per 10
Waxy pink fragrant flowers in May. Of recent introduction, this has rapidly become one of our most popular shrubs.		
18-24 in. ....	4.00	36.00
<b>VIBURNUM dentatum</b> , ARROWWOOD VIBURNUM, 6-12 ft.		
White flowers in May or June on a bushy shrub. Conspicuous blue fruit in September or October, is very attractive to birds.		
2-3 ft. ....	1.25	11.25
<b>VIBURNUM dilatatum</b> , LINDEN VIBURNUM, 7-10 ft.		
Upright bushy shrub, with showy white flowers in May-June, and handsome scarlet fruit in September-October. A fine species from E. Asia.		
3-4 ft. ....	3.00	
<b>VIBURNUM lantana</b> , WAYFARINGTREE VIBURNUM, 10-15 ft.		
Upright shrub, sometimes tree-like. White flowers in May-June, red fruit in July changing to black as it ripens in August and September.		
2-3 ft. ....	1.50	13.50
3-4 ft. ....	2.00	18.00
<b>VIBURNUM lentago</b> , NANNYBERRY VIBURNUM, 10-30 ft.		
Shrub or small tree, with attractive white flowers in May-June and blue-black fruit in September-October.		
5-6 ft. ....	3.00	27.00
<b>VIBURNUM pubescens</b> , DOWNY VIBURNUM, 8-10 ft.		
Spreading shrub, white flowers in May-June, and blue-black fruit in September-October.		
2-3 ft. ....	1.50	13.50
<b>VIBURNUM sargentii</b> , SARGENT VIBURNUM, 10-15 ft.		
Fine species from N. E. Asia. Showy white flowers in May-June, scarlet fruit in August-October. All the Viburnums attract birds.		
18-24 in. ....	1.25	11.25
<b>VIBURNUM trilobum</b> , AMERICAN CRANBERRYBUSH VIBURNUM, 8-12 ft.		
Popular native species, with its profuse white flowers in June and scarlet fruit coming in August and lasting well into the Winter. Very hardy.		
2-3 ft. ....	1.25	11.25
3-4 ft. ....	1.50	13.50

		Each	Per 10
<b>VINCA minor, COMMON PERIWINKLE</b>			
Popular trailing evergreen vine with attractive lilac-blue flowers in April with scattered blooms appearing through the summer. A dependable groundcover plant.			
Pot grown (25.00 per 100)	.....	.35	3.00
<b>VINCA minor, Hv. WHITE COMMON PERIWINKLE</b>			
Fine white form, not generally available.			
Pot grown (40.00 per 100)	.....	.50	4.50
<b>WEIGELA florida (rosea), OLDFASHIONED WEIGELA, 6-10 ft.</b>			
From North China and Korea. One of the handsomest species with rose pink flowers in May-June.			
2-3 ft.	.....	1.25	11.25
<b>XANTHORHIZA simplicissima, YELLOWROOT, 2-4 ft.</b>			
Tiny dark purple flowers in April. Finely cut foliage. A fine undershrub for Rhododendrons, Azaleas, etc.			
9-12 in.	.....	1.00	9.00

MOVING A LARGE TREE

Our tree moving equipment is especially designed for safely transplanting large Evergreens or Shade Trees up to almost 1 foot in diameter. We have many handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little disturbance to the root systems, largely eliminating risks.

# Vines

<b>ARISTOLOCHIA durior</b> , COMMON DUTCHMAN SPIKE	Each	Per 10
Rapid growing vine with large leaves, greenish-yellow flowers in May.		
3 year .....	2.00	18.00
<b>CELASTRUS orbiculata punctata</b> , CHRISTMAS ORIENTAL BITTERSWEET		
Rapid growing, twining vine, bright orange pods split showing the scarlet fruit.		
3 year .....	1.25	11.25
<b>CLEMATIS paniculata</b> , SWEET AUTUMN CLEMATIS		
Vigorous woody climber, with showy fragrant feathery flowers in August-September.		
3 year .....	1.00	9.00
<b>EUONYMUS fortunei radicans</b> , COMMON WINTER-CREEPER EUONYMUS		
A fine evergreen groundcover, commonly used as a cover for brick or stone walls.		
9-12 in. ....	1.25	11.25
<b>EUONYMUS fortunei vegetus</b> , BIG LEAF WINTER-CREEPER EUONYMUS		
Larger leaves and more rapid growth.		
9-12 in. ....	1.25	11.25
<b>EUONYMUS fortunei</b> , Hv. BABY WINTERCREEPER EUONYMUS (minimus)		
Tiny green leaves and slow growth. A rock garden gem.		
9-12 in. ....	1.50	13.50
<b>EUONYMUS fortunei</b> , Hv. GLOSSY EUONYMUS (carrieri)		
Shrubby in character, with attractive fruit.		
6-9 in. ....	1.00	9.00
9-12 in. ....	1.25	11.25
<b>EUONYMUS fortunei</b> , Hv. PURPLE LEAF EUONYMUS (colorata)		
Best used as a groundcover. Leaves purplish in Fall and Winter.		
9-12 in. ....	1.50	13.50

<b>HEDERA helix</b> , Hv. <b>BALTIC IVY</b>	Each	Per 10
Hardier than English Ivy, this is a fine groundcover in shady places, and as a cover for brick or stone walls on north exposures.		
Pot grown . . . . .	.75	6.75

<b>HYDRANGEA petiolaris</b> , <b>CLIMBING HYDRANGEA</b>		
One of the finest climbing plants. Showy white fragrant flowers in July, rich green leaves. Clings to stone and brick walls.		
Pot grown . . . . .	1.50	13.50

<b>LONICERA japonica halliana</b> , <b>HALLS JAPANESE HONEYSUCKLE</b>		
A strong growing vine. Fragrant creamy white flowers turning to soft buff-yellow. June-September. A fine groundcover, for exposed banks.		
Strong clumps . . . . .	.75	6.75

<b>xLONICERA heckrotti</b> , <b>EVERBLOOMING HONEYSUCKLE</b>		
Flowers reddish-purple outside, yellow inside. June-September. A splendid irregular shrub or vine.		
Strong plants . . . . .	1.25	11.25

<b>PARTHENOCISSUS quinquefolia</b> , <b>VIRGINIA CREEPER</b>		
A high-climbing vine, best for stone-wall or tree trunks.		
3 year . . . . .	1.25	11.25

<b>PARTHENOCISSUS tricuspidata</b> , <b>JAPANESE CREEPER</b>		
Clings firmly to walls forming a dense cover. Leaves orange and scarlet in Fall. Good for city conditions.		
Pot grown . . . . .	1.00	9.00

<b>ROSA</b> , <b>CLIMBING HORTICULTURAL VARIETIES.</b>		
<i>All varieties listed are \$1.25 each, \$10.00 per 10. Potted plants in late Spring and Summer \$1.75 each.</i>		
AMERICAN PILLAR. Single, Brilliant crimson with white center. Late.		
DR. VAN FLEET. Large flowers, exquisite flesh pink. Mid-season.		
PAULS SCARLET. Deep red-crimson. Most popular climbing rose.		
PRIMROSE. Fine free-flowering yellow rambler. Vigorous. Mid-season.		
SILVER MOON. Creamy buds, large single white flowers. Mid-season.		

<b>WISTARIA sinensis</b> , <b>CHINESE WISTARIA</b>		
Long drooping clusters of lovely blue-purple flowers in May and early June. One of the finest vines for New England. Strong grafted plants, \$2.00 each, \$18.00 per 10.		

See Page 54 for complete list of Groundcover Plants.

See Page 55 for Plants for Autumn Coloring.

# *Lists of Plants for Special Environments and Purposes*

## **PLANTS SUITABLE FOR ROCK GARDENS**

EVERY Rock Garden has problems of its own. No list of this nature can in any way be complete — it can merely suggest a few of the varieties that are being successfully used in the finest American Rock Gardens. Herbaceous perennials are not included, as use of the various kinds depends on the type and size of the rock garden. We will gladly make recommendations of perennials to use for given types of rock gardens.

*Abies fraseri prostrata*  
*Arctostaphylos uvaursi*  
*Azalea obtusa*  
*Azalea yedoensis poukhanensis*  
*Buxus microphylla koreana*  
*Calluna* in variety  
*Cornus stolonifera*, Hv. Kelseydwarf  
*Cotoneaster horizontalis*  
*Cotoneaster horizontalis perpusilla*  
*Cotoneaster horizontalis wilsoni*  
*Cotoneaster microphylla*  
*Daphne cneorum*  
*Daphne mezereum*  
*Erica carnea*  
*Galax aphylla*  
*Gaylussacia brachycera*  
*Genista pilosa*  
*Juniperus chinensis sargentii*  
*Juniperus communis depressa*  
*Juniperus communis hibernica*  
*Juniperus communis suecica*

*Juniperus horizontalis*  
*Juniperus horizontalis douglasi*  
*Juniperus horizontalis plumosa*  
*Juniperus squamata*  
*Leiophyllum buxifolium prostratum*  
*Pachistima canbyi*  
*Picea*, Dwarf Alberta Spruce  
*Pieris floribunda*  
*Pieris japonica*  
*Pinus mugo mughus*  
*Rhododendron laetivirens*  
*Rhododendron myrtifolium*  
*Salix*, Dwarf Purpleosier Willow  
*Taxus* in variety  
*Thuja*, Booth Globe  
*Thuja*, Douglas Pyramidal  
*Thuja*, Reid  
*Thuja*, Tom Thumb  
*Vaccinium vitisidaea majus*  
*Vaccinium vitisidaea minor*

**A fine naturalistic rock garden planting designed and planted  
by Harlan P. Kelsey, Inc.**

## BERRY BEARING PLANTS

Plantings for Birds. Birds add beauty and song to the gardens, and are of greatest value in curbing insect damage. Every garden should include plants that provide natural bird food and cover. We know what these plants are and will gladly help you plan their proper use. This list includes only berry-bearing plants. It should be realized that most of the Pines, Firs, Spruces and other evergreens attract certain seed-eating birds, especially in fall and winter.

*Amelanchier canadensis*, reddish-purple  
*Amelanchier laevis*, purple or nearly black  
*Amelanchier oblongifolia*, black  
*Aronia melanocarpa*, black  
*Arctostaphylos uvaursi*, bright red

*Berberis koreana*, red  
*Berberis sieboldi*, bright red  
*Berberis thunbergii*, red

*Chionanthus virginicus*, dark blue  
*Cornus alternifolia*, dark blue  
*Cornus florida*, scarlet  
*Cornus racemosa*, white  
*Cornus sanguinea*, purple-black

*Viburnum trilobum*, scarlet

## GROUNDCOVER PLANTS

A list such as this cannot hope to cover all kinds of plants that may be used as groundcovers. In large landscape projects such plants as Mountainlaurel *Kalmia*, (*Kalmia latifolia*), many varieties of medium to tall growing shrubs and the like might be used for broad groundcover effects.

Our intention here is not to cover this kind of use, but to indicate the plants that are useful as groundcovers in the commonly accepted sense of the word. In general, therefore, the list is limited to plants which rarely exceed three feet in height, even in maturity. There are some exceptions, in the case of such plants as Dwarf Japanese Yew (*Taxus cuspidata nana*), which, although eventually it would normally reach five or six feet in height, can be maintained almost indefinitely by pruning at a height of two feet or less.

For your convenience in choosing the kind of groundcover best suited for your purpose, we have indicated the approximate normal height of the plants listed as follows.

Where two letters occur it indicates a variable species, some individuals of which are lower than others.

P — prostrate or trailing  
S — less than one foot tall

M — one to two feet tall  
L — Over two feet tall

### Evergreens

- L *Abies fraseri prostrata*
- P *Juniperus chinensis sargentii*
- SM *Juniperus communis depressa*
- P *Juniperus horizontalis*
- P *Juniperus horizontalis douglasi*
- S *Juniperus horizontalis plumosa*
- M *Juniperus sabina*
- P *Juniperus squamata*
- SL *Pinus mugo mughus*
- M *Taxus canadensis*
- ML *Taxus cuspidata nana*

### Deciduous Shrubs

- M *Azalea obtusa*
- L *Azalea yedoensis poukhanensis*
- L *Cornus*, Hv. Kelseydwarf
- M *Genista pilosa*
- L *Myrica pensylvanica*
- M *Rhododendron canadense* (moist places )
- L *Rosa rugosa*
- L *Salix purpurea*, Hv. Dwarf
- ML *Xanthorhiza simplicissima*

### Vines

- M *Celastrus orbiculata punctata*
- SM *Euonymus fortunei minimus*
- M *Euonymus fortunei radicans*
- S *Euonymus fortunei vegetus*
- M *Euonymus fortunei*, Hv. Glossy
- PS *Euonymus fortunei*, Hv. Purpleleaf
- P *Hedera helix*, Hv. Baltic Ivy
- PS *Lonicera japonica halliana*

### Broadleaf Evergreens

- P *Arctostaphylos uvaursi*
- M *Buxus microphylla koreana*
- M *Calluna*, in variety
- S *Calluna vulgaris nana*
- L *Chamaedaphne* (for moist places)
- S *Cotoneaster horizontalis*
- S *Cotoneaster horizontalis perpusilla*
- S *Cotoneaster horizontalis wilsoni*
- M *Cotoneaster microphylla*
- S *Daphne cneorum*
- P *Epigaea repens*
- S *Erica carnea*
- S *Galax aphylla*
- PS *Gaylussacia brachycera*
- ML *Kalmia angustifolia*
- L *Leucothoe catesbaei*
- P *Mitchella repens*
- S *Pachistima canbyi*
- S *Pachysandra terminalis*
- L *Pieris floribunda*
- L *Rhododendron laetivirens*
- P *Shortia galacifolia*
- PS *Vaccinium vitisidaea majus*
- P *Vaccinium vitisidaea minor*
- P *Vinca minor*
- P *Vinca minor alba*

We are always glad to advise on special problems.

For descriptions of plants in these special lists please refer to general alphabetical listings.

# Plants for Autumn Coloring

*Acer platanoides*, bright yellow  
*Acer rubrum*, red, rarely yellow  
*Acer saccharum*, scarlet-orange or yellow  
*Acer tataricum*, yellow  
*Amelanchier laevis*, purplish-red  
*Arctostaphylos uvaursi*, red-purple  
*Aronia arbutifolia*, red  
*Aronia melanocarpa*, red  
*Azalea arborescens*, red  
*Azalea obtusa*, reddish-purple  
*Azalea obtusa kaempferi*, crimson  
*Azalea schlippenbachii*, yellow, orange or red  
*Azalea vaseyi*, red  
*Azalea yedoensis poukhanensis*, reddish-purple

*Berberis koreana*, deep red  
*Berberis sieboldii*, vinous red  
*Berberis thunbergii*, brilliant red  
*Berberis thunbergii atropurpurea*, purple-red  
*Betula lutea*, yellow  
*Betula papyrifera*, yellow  
*Betula pendula*, yellow  
*Betula pendula gracilis*, yellow  
*Betula populifolia*, yellow

*Calluna vulgaris*, Hv. *Cuprea*, bronze  
*Carpinus betulus*, yellow  
*Carpinus carolinianum*, yellow  
*Cladrastis lutea*, yellow  
*Clethra alnifolia*, red  
*Cornus* in variety, red  
*Cotoneaster horizontalis*, red  
*Cotoneaster horizontalis perpusilla*, orange-red  
*Cotoneaster horizontalis wilsoni*, orange-red  
*Crataegus coccinoides*, red  
*Crataegus crusgalli*, orange and scarlet  
*Crataegus phaenopyrum*, bright red

*Euonymus alatus*, brilliant red  
*Euonymus alatus*, Hv. Dwarf, red  
*Euonymus bungeanus*, yellow and red  
*Euonymus europaeus*, red  
*Euonymus sachalinensis*, red

*Fagus sylvatica*, yellow  
*Forsythia ovata*, wine colored

*Galax aphylla*, scarlet  
*Gaylussacia brachycera*, red  
*Ginkgo biloba*, yellow

*Halesia carolina*, yellow  
*Hamamelis vernalis*, yellow  
*Hamamelis virginiana*, yellow

The plants in this list are especially valuable for the great variety of their foliage colors in autumn. This autumn coloring gives added value in the garden in the season when flowers are few and far between. New England is famous for its autumn coloring and many of the plants listed below have contributed to that fame, especially Red Maple, (*Acer rubrum*), Sugar Maple, (*Acer saccharum*), Birches, (*Betula* in var.), Dogwood, (*Cornus* in var.), Blueberry (*Vaccinium*), and the Oaks (*Quercus*).

*Juniperus horizontalis douglasii*, pale purple  
*Juniperus horizontalis plumosa*, purple

*Larix leptolepis*, yellow  
*Leucothoe catesbaei*, red

*Malus hupehensis*, red and purple

*Nyssa sylvatica*, bright crimson

*Oxydendrum arboreum*, brilliant scarlet

*Phellodendron sachalinense*, bright yellow  
*Photinia villosa*, bright red

*Quercus alba*, vinous-red or violet-purple  
*Quercus borealis*, dark red  
*Quercus coccinea*, brilliant scarlet  
*Quercus imbricaria*, russet-red  
*Quercus palustris*, brilliant red

*Rhododendron carolinianum*, red  
*Rhododendron mucronulatum*, scarlet

*Sorbus commixta*, red  
*Spiraea prunifolia*, orange  
*Spiraea thunbergii*, orange and scarlet  
*Symphoricarpos orbiculatus*, red  
*Syringa oblata dilatata*, vinous red

*Vaccinium corymbosum*, red  
*Viburnum carlesii*, deep wine-red  
*Viburnum dentatum*, red  
*Viburnum dilatatum*, dull-red  
*Viburnum pubescens*, red  
*Viburnum sargentii*, red  
*Viburnum trilobum*, red

## PLANTS FOR MOIST SOILS

Many plants will not stand a location that is quite moist a great deal of the time. These varieties, however, seem to enjoy considerable moisture if proper drainage is provided. In many cases it increases their growth and gives them finer foliage.

Care must be used in choosing varieties that will best suit your particular location and we are prepared to help you plan correctly.

Abies in variety  
Acer in variety  
Ailanthus altissima  
Amelanchier in variety  
Azalea arborescens  
Azalea calendulacea  
Azalea nudiflora  
Azalea vaseyi  
Azalea viscosa

Berberis in variety  
Betula lutea  
Betula nigra

Calycanthus floridus  
Carpinus in variety  
Chaenomeles lagenaria  
Chamaedaphne calyculata  
Chionanthus virginicus  
Cladrastis lutea  
Clethra alnifolia  
Clethra alnifolia rosea  
Cornus racemosa  
Cornus sanguinea  
Cornus stolonifera

Deutzia in variety

Epigaea repens  
Erica carnea  
Euonymus in variety

Fagus in variety  
Forsythia in variety

Gaylussacia brachycera

Halesia carolina  
Hamamelis in variety  
Hydrangea in variety

Ilex glabra  
Ilex verticillata

Juniperus chinensis sargentii  
Juniperus communis hibernica  
Juniperus communis suecica  
Juniperus horizontalis  
Juniperus horizontalis douglasi  
Juniperus horizontalis plumosa  
Juniperus squamata

Kalmia angustifolia  
Kalmia latifolia  
Kerria japonica  
Kerria japonica, Hv. Double  
Kolkwitzia amabilis

**SWEET AZALEA — *Azalea arborescens***

Larix in variety  
Leucothoe catesbaei  
Lonicera korolkowi  
Lyonia mariana

Malus in variety

Nyssa sylvatica

Oxydendrum arboreum

Pieris floribunda  
Pieris japonica  
Pinus strobus  
Pinus strobus pyramidalis  
Pinus sylvestris rigensis  
Populus in variety  
Prunus triloba

Quercus palustris

Rhamnus davurica  
Rhododendron canadense  
Rhododendron canadense albiflorum  
Rhododendron maximum  
Rhododendron minus  
Rosa setigera

## PLANTS FOR MOIST SOILS (*Continued*)

Salix in variety	Symphoricarpos albus	Ulmus pumila
Sophora japonica	Symphoricarpos orbiculatus	Vaccinium corymbosum
Sorbus commixta	Syringa oblata dilatata	Viburnum dentatum
Sorbus intermedia	Syringa villosa	Viburnum trilobum
Spiraea prunifolia		
Spiraea thunbergi	Thuja in variety	

## PLANTS FOR DRY SOILS

Often it is extremely difficult to find plants that will thrive in soil that is quite dry. These plants are among the best for such situations and when established seem to enjoy well-drained and rather dry soil, although many will do well under moist soil conditions and may also be found in the following list.

Ailanthus altissima	Pinus strobus pyramidalis
Arctostaphylos uvaursi	Pinus sylvestris rigensis
Betula populifolia	Populus, in variety
Calluna, in variety	Prunus besseyi
Genista pilosa	Prunus maritima
Juniperus, in variety	Robinia kelseyi
Lonicera japonica halliana	Rosa rugosa
Myrica pensylvanica	Rosa setigera
Picea pungens	Sophora japonica
Pinus mugo	Symphoricarpos albus
Pinus mugo mughus	Symphoricarpos orbiculatus
Pinus resinosa	Xanthorrhiza apiifolia
Pinus strobus	

## PLANTS FOR SEASHORE CONDITIONS

IN PLANTING nursery stock near the shore it is advisable to select plants that will withstand the attacks of ocean winds and salt spray. Only comparatively resistant kinds are listed here, and even these will sometimes suffer in the most severe seashore exposures. Many others will do well near the seashore with a little more protection.

Abies concolor	Juniperus in variety	Pinus sylvestris rigensis
Acer rubrum	Ligustrum in variety	Pinus thunbergi
Amelanchier in variety	Lonicera japonica halliana	Populus in variety
Arctostaphylos uvaursi	Lonicera sempervirens	Prunus in variety
Berberis in variety	Lonicera tatarica, in variety	Rhamnus in variety
Betula in variety	Malus in variety	Rhododendron laetivirens
Calluna in variety	Myrica carolinensis	Robinia in variety
Celastrus orbiculata punctata	Picea asperata	Rosa in variety
Clethra in variety	Picea engelmanni	Salix in variety
Cornus, shrub forms	Picea glauca	Sorbus in variety
Cotoneaster in variety	Picea jezoensis	Spiraea in variety
Crataegus in variety	Picea pungens	Syringa in variety
Erica carnea	Picea pungens glauca	Taxus in variety
Euonymus alatus	Picea pungens, Hv. Koster	Tilia cordata
Euonymus alatus, Hv. Dwarf	Pinus densiflora	Ulmus americana
Forsythia in variety	Pinus mugo	Ulmus pumila
Hydrangea in variety	Pinus mugo mughus	Vaccinium in variety
Hydrangea petiolaris	Pinus nigra	Viburnum in variety
Ilex glabra	Pinus resinosa	Weigela florida
		Wistaria sinensis

## PLANTS FOR SHADY PLACES

The following plants will do well in shady or semi-shady locations. Some will stand more shade than others. Good rich peaty soil is always desirable. If your problem is unusually difficult because of heavy shade, we suggest a consultation on the grounds, at which time we will gladly suggest recommended plant materials, and soil conditioning when necessary. It should be noted that most of the species in this list will also do very well in sunny locations where soil conditions are suitable.

Amelanchier canadensis  
Amelanchier laevis  
Amelanchier oblongifolia  
Arctostaphylos uvaursi  
Aronia arbutifolia  
Aronia melanocarpa  
Azalea in variety

Calycanthus floridus  
Clethra alnifolia  
Clethra alnifolia rosea  
Cornus in variety

Diervilla sessilifolia

Epigaea repens

Forsythia intermedia spectabilis  
Forsythia ovata

Galax aphylla  
Gaylussacia brachycera

Halesia carolina  
Hamamelis vernalis  
Hamamelis virginiana  
Hydrangea in variety

Ilex glabra  
Ilex verticillata

Kalmia angustifolia  
Kalmia latifolia

Leucothoe catesbaei  
Ligustrum amurense  
Ligustrum ibolium  
Lyonia mariana

Mitchella repens  
Myrica pensylvanica

Pachysandra terminalis  
Philadelphus coronarius  
Philadelphus virginialis  
Pieris in variety

Rhamnus davurica  
Rhododendron in variety  
Rosa setigera

Shortia galacifolia  
Symphoricarpos albus  
Symphoricarpos orbiculatus

Taxus in variety  
Thuja in variety  
Tsuga canadensis  
Tsuga caroliniana

Vaccinium corymbosum  
Viburnum in variety  
Vinca minor  
Vinca minor, Hv. White

Xanthorrhiza simplicissima

### Vines

Aristolochia durior  
Celastrus orbiculata punctata  
Clematis paniculata  
Euonymus in variety  
Hedera helix, Hv. Baltic  
Parthenocissus quinquefolia

### SALESGROUND AT OUR NURSERY

Visitors are always welcome.

SEND FOR OUR SPECIAL LIST OF CHOICE PERENNIALS.

# *Terms and Conditions of Sale*

---

**Nomenclature.** The 1942 edition of "Standardized Plant Names" published by the American Joint Committee on Horticultural Nomenclature is authority for names used in this catalog.

**Prices** in this catalog cancel all previous lists and quotations and are subject to change without notice. Retail prices include packing, except for bulky or unusual shaped plants or when special methods are requested; prices are f.o.b. East Boxford, Massachusetts. No charge for local truck delivery on our regular delivery routes and days.

All orders are accepted subject to prior sale and to condition of stock at delivery date, under the following terms and conditions:

**Grade.** We supply a standard grade of stock. Unusual specimen material or plants specially selected by customers at the nursery will be charged for according to value, irrespective of the catalogue list price.

We warrant all plants to be of true name, full count, up to grade, and in good condition when shipped.

## **G U A R A N T E E**

**SIX MONTHS' GUARANTEE:** We guarantee to furnish nursery stock in first class condition so that with proper aftercare, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid by the purchaser.

Should we not have the same plants in stock we reserve the right to give credit for the amount paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

**Terms.** **Cash with order** or satisfactory reference from unknown customers. Established credit accounts are due in 30 days from date of invoice. C.O.D. orders must be accompanied by one-third of the amount. Overdue accounts are subject to interest at 6 per cent.

**Shipping Instructions** should accompany order. State whether Freight, Express, Parcel Post or Truck, and give exact destination. Otherwise, we use our best judgment but assume no responsibility thereby. We deliver by truck all over New England and nearby states at reasonable rates. All goods are at purchaser's risk after delivery to forwarding companies in good condition. Claims for damage while in transit must be made against the delivery company.

**Claims for errors** must be made in writing within 5 days after receipt of goods. Any mistake or fault on our part will be gladly rectified. Stock delivered as per order and in good condition is not returnable.
